## Declaration of Independence from the UN

### A message from APC President, Tom DeWeese:

Hello Americans,

If it were 1776 would you stand with our Founding Fathers?

Would you have signed the Declaration of Independence to tell the world's most powerful force that its tyrannical control was over?

Well, now you have your chance!

Today, right now, you can sign the "*Declaration of Independence from the United Nations.*"

You see, many of the exact offenses that our Founding Fathers fought against are now threatening us through the UN.

The fact is the UN is driving to enforce global policies that would:

- Tax us without representation and set up a global IRS.
- Create an international police force that would threaten the independence and security of our nation.
- Create its own court system with no right to trial by jury of our peers.
- Interfere with our Constitutional form of government through a series of international treaties.

When King George did these things to the colonies, our Founding Fathers took action to stop him.

Now, to preserve the freedoms secured for us by our courageous founders it's urgent that you and I take the same action.

The fact is the United Nation is the root of all the threats we face. It is the most dangerous force on Earth and no moral nation should ever be a part of it.

We must get our nation out of the UN!

That's why it's urgent that you sign your own "*Declaration of Independence from the United Nations*" in support of legislation that would remove the United States from the UN.

The American Sovereignty Restoration Act (H.R. 1146) has been introduced by Rep. Ron Paul. This bill demands that the United States:

- Completely withdraw from the United Nations.
- Completely withdraw from ALL United Nations Programs.
- And that the United Nations LEAVE AMERICAN SHORES!
- This bill is what we need to free our nation from the tyranny of the UN.

Please send a message to Congress – tell them you want our nation out of the UN – right now! Send that message by signing the "*Declaration of Independence from the United Nations*" and it will go directly to House Speaker John Boehner.

My goal is to send millions to Speaker Boehner to show that Americans nationwide want us out of the UN and demand that he take action to support H.R. 1146.

Here's why it's so urgent that the United States withdraw from the UN.

The United Nations is driving toward making itself the central government of the world. It has declared the entire earth a "Global Commons" under its rule.

Using the world economic crisis as an excuse, the UN has now put a very specific plan together to gain control over the world economy, including:

- UN control of the sea, space and air
- UN tax authority.
- UN financial regulatory authority
- UN authority over world commerce
- Creation of a world (UN) Monetary Board to create a UN currency.

The UN is behind the global warming scares. It is using the environment as an excuse to control all human

action in the world. Every single UN program is based on one thing – redistribution of wealth – your wealth.

It's working to destroy independent nations – forcing us all into a global village, controlled by UN rule, UN taxes and a UN military.

The UN's Commission on Global Governance issued a report saying, "*Mankind's problems can no longer be solved by national governments. What is needed is a World Government.*"

That means that our unique Republic with our Constitution that limits government power and our Bill of Rights that guarantees our right to speak out, and our unique court system that guarantees a trial by a jury of our peers – and so much more will be thrown out – and UN-appointed bureaucrats will decide how we are to live. You would have no vote – no say.

Does the threat of a UN-controlled IRS concern you?

This is a terrible threat to our lives. In the past, American presidents have resisted such UN plans. But today, Barack Obama is working hand-in-hand with the UN to bring these plans to reality.

There is only one solution: Get the United States out of the UN – now!

That's why Rep. Ron Paul has introduced the American Sovereignty Restoration Act (HR 1146), to get us out of the UN before it's too late. HR 1146 calls for the United States to withdraw from the UN and for the UN to leave our shores.

That is exactly what Thomas Jefferson would have done with the UN!

Rep. Paul says he believes that H.R. 1146 is a test. It makes Congress answer the question – does it support American sovereignty -- or not!

Your signed "*Declaration*" is your opportunity to force Congress to take that test and make the UN threat a national debate.

Please send yours today and let's get rid of the most corrupt power on the face of the earth – the United Nations.

Will you also help me and the American Policy Center (APC) get this message out to millions of Americans?

As you may know, APC is the recognized leader in the fight to get us out of the UN. Our fight against the UN has been recognized internationally. In fact, that's why a few years ago I was invited to Cambridge University in England to debate the UN issue against the former UK Ambassador to the UN.

APC's Action Alert System, called "Sledgehammer" is one of the most effective on Capitol Hill. APC's articles and reports have been published in hundreds of newspapers and magazines. Through the Internet we are reaching millions of people around the world. I regularly appear on radio and television and speak at conferences across the nation.

APC is a fierce, effective voice in the fight for the principles of liberty.

Will you help me now to lead this vital effort to get our nation out of the UN? To do that I need your financial support to help me pay for the cost of reaching Americans nationwide?

Your gift will help me build more support for H.R. 1146. Individual contributions like yours are APC's ONLY source of income. We receive no grants or large corporate donations. So your support is vital to APC's work.

So, what ever amount you can contribute, please do it today.

[Click here to make a donation.](#)

I believe that time is very short for America's independence if the UN's global governance agenda goes forward unchecked. If we do nothing we will lose.

We can stop it now – if we demand it!!

In 1776 our Founding Fathers fought to overthrow the darkness of tyranny. Can you and I do less?
