[Piano del pezzo – di Mr. Fish](#)

Israele, per decenni, ha giocato un gioco ingannevole. Firma un accordo con i palestinesi che deve essere implementato in fasi. La prima fase dà a Israele ciò che vuole, in questo caso il rilascio degli ostaggi israeliani a Gaza, ma Israele di solito non riesce a implementare le fasi successive che porterebbero a una pace giusta ed equa. Alla fine provoca i palestinesi con attacchi armati indiscriminati per vendicarsi, definisce una risposta palestinese come una provocazione e abroga l'accordo di cessate il fuoco per riaccendere il massacro.

Se questo ultimo accordo di cessate il fuoco in tre fasi verrà ratificato, e non c'è certezza che ciò accadrà da parte di Israele, mi aspetto che sarà poco più di una pausa per i bombardamenti dell'insediamento presidenziale. Israele non ha alcuna intenzione di fermare la sua giostra di morte.

Il governo israeliano ha rinviato il voto sulla proposta di cessate il fuoco mentre continua a martellare Gaza. Almeno 81 palestinesi sono stati uccisi nelle ultime 24 ore.

La mattina dopo l'annuncio di un accordo di cessate il fuoco, il primo ministro israeliano Benjamin Netanyahu ha accusato Hamas di aver rinnegato parte dell'accordo "nel tentativo di estorcere concessioni dell'ultimo minuto". Ha avvertito che il suo gabinetto non si riunirà "finché i mediatori non notificheranno a Israele che Hamas ha accettato tutti gli elementi dell'accordo".

Hamas ha respinto le affermazioni di Netanyahu e ha ribadito il proprio impegno a rispettare il cessate il fuoco, come concordato con i mediatori.

L'accordo comprende tre fasi. La prima fase, della durata di 42 giorni, vedrà la cessazione delle ostilità. Hamas rilascerà alcuni ostaggi israeliani (33 israeliani catturati il 7 ottobre 2023, tra cui tutte le restanti cinque donne, quelle con più di 50 anni e quelle malate) in cambio di un massimo di 1.000 palestinesi imprigionati da Israele.

L'esercito israeliano si ritirerà dalle aree popolate della Striscia di Gaza il primo giorno del cessate il fuoco. Il settimo giorno, ai palestinesi sfollati sarà consentito di tornare nella parte settentrionale di Gaza. Israele consentirà a 600 camion di aiuti con cibo e forniture mediche di entrare a Gaza ogni giorno.

La seconda fase, che inizia il 16° giorno del cessate il fuoco, vedrà il rilascio degli ostaggi israeliani rimasti. Israele completerà il suo ritiro da Gaza durante la seconda fase, mantenendo una presenza in alcune parti del corridoio di Filadelfia, che si estende lungo il confine di otto miglia tra Gaza ed Egitto. Rinuncerà al controllo del valico di frontiera di Rafah verso l'Egitto.

La terza fase vedrà l'avvio di negoziati per porre fine definitivamente alla guerra.

Ma è l'ufficio di Netanyahu che sembra aver già rinnegato l'accordo. Ha rilasciato una dichiarazione in cui respinge il ritiro delle truppe israeliane dal Corridoio di Filadelfia durante la prima fase di 42 giorni del cessate il fuoco. "In termini pratici, Israele rimarrà nel Corridoio di Filadelfia fino a nuovo avviso", mentre afferma che i palestinesi stanno tentando di violare l'accordo. I palestinesi durante le numerose negoziazioni del cessate il fuoco hanno chiesto che le truppe israeliane si ritirassero da Gaza. L'Egitto ha condannato la presa dei suoi valichi di frontiera da parte di Israele.

Le profonde fratture tra Israele e Hamas, anche se gli israeliani accettassero finalmente l'accordo, minacciano di farlo implodere. Hamas sta cercando un cessate il fuoco permanente. Ma la politica israeliana è inequivocabile sul suo "diritto" a impegnarsi nuovamente militarmente. Non c'è consenso su chi governerà Gaza. Israele ha chiarito che la continuazione di Hamas al potere è inaccettabile. Non c'è menzione dello status dell'Agenzia delle Nazioni Unite per il soccorso e l'occupazione dei rifugiati palestinesi nel Vicino Oriente (UNRWA), l'agenzia delle Nazioni Unite che Israele ha messo fuorilegge e che fornisce la maggior parte degli aiuti umanitari dati ai palestinesi, il 95 per cento dei quali è stato sfollato. Non c'è accordo sulla ricostruzione di Gaza, che giace in macerie. E, naturalmente, non c'è alcuna via nell'accordo per uno stato palestinese indipendente e sovrano.

La menzogna e la manipolazione israeliane sono pietosamente prevedibili.

Gli accordi di Camp David, firmati nel 1979 dal presidente egiziano Anwar Sadat e dal primo ministro israeliano Menachem Begin, senza la partecipazione dell'Organizzazione per la liberazione della Palestina (OLP), normalizzarono le relazioni diplomatiche tra

Israele ed Egitto. Ma le fasi successive, che includevano la promessa da parte di Israele di risolvere la questione palestinese insieme a Giordania ed Egitto, di consentire l'autogoverno palestinese in Cisgiordania e a Gaza entro cinque anni e di porre fine alla costruzione di colonie israeliane in Cisgiordania, inclusa Gerusalemme Est, non furono mai onorate .

Oppure prendiamo gli Accordi di Oslo del 1993. L'accordo, firmato nel 1993, che vide l'OLP riconoscere il diritto di Israele a esistere e Israele riconoscere l'OLP come rappresentante legittimo del popolo palestinese, e Oslo II, firmato nel 1995, che descrisse dettagliatamente il processo verso la pace e uno stato palestinese, nacque morto.

Stabiliva che qualsiasi discussione sugli "insediamenti" ebraici illegali doveva essere rinviata fino ai colloqui sullo status "definitivo", entro i quali i ritiri militari israeliani dalla Cisgiordania occupata dovevano essere completati. L'autorità di governo doveva essere trasferita da Israele alla presunta Autorità Palestinese temporanea. La Cisgiordania fu divisa nelle Aree A, B e C. L'Autorità Palestinese ha un'autorità limitata nelle Aree A e B. Israele controlla tutta l'Area C, oltre il 60 per cento della Cisgiordania.

Il diritto dei rifugiati palestinesi a tornare nelle terre storiche loro sottratte nel 1948, quando fu creato Israele, un diritto sancito dal diritto internazionale, fu rinunciato dal leader dell'OLP Yasser Arafat, alienando all'istante molti palestinesi, in particolare quelli di Gaza, dove il 75 per cento sono rifugiati o discendenti di rifugiati. Edward Said definì l'accordo di Oslo "uno strumento di resa palestinese, una Versailles palestinese" e criticò duramente Arafat definendolo "il Pétain dei palestinesi".

I ritiri militari israeliani programmati sotto Oslo non hanno mai avuto luogo. Non c'era alcuna disposizione nell'accordo provvisorio per porre fine alla colonizzazione ebraica, solo un divieto di "misure unilaterali". C'erano circa 250.000 coloni ebrei in Cisgiordania al momento dell'accordo di Oslo. Sono aumentati almeno 700.000. Non è mai stato concluso alcun trattato finale.

Il giornalista Robert Fisk ha definito Oslo "una farsa, una bugia, un trucco per indurre Arafat e l'OLP ad abbandonare tutto ciò che avevano cercato e per cui avevano lottato per oltre un quarto di secolo, un metodo per creare false speranze al fine di evirare l'aspirazione allo Stato".

Il primo ministro israeliano Yitzhak Rabin, che firmò l'accordo di Oslo, fu assassinato il 4 novembre 1995, dopo una manifestazione a sostegno dell'accordo, da Yigal Amir, uno studente di giurisprudenza ebreo di estrema destra. Itamar Ben-Gvir, ora ministro della sicurezza nazionale di Israele, fu uno dei tanti politici di destra che lanciarono minacce contro Rabin. La vedova di Rabin, Leah, incolpò Netanyahu e i suoi sostenitori, che distribuirono volantini ai raduni politici raffiguranti Rabin in uniforme nazista, per l'omicidio del marito.

Da allora Israele ha condotto una serie di attacchi omicidi su Gaza, definendo cinicamente il bombardamento "tagliare l'erba del prato". Questi attacchi, che lasciano decine di morti e feriti e degradano ulteriormente la fragile infrastruttura di Gaza, hanno nomi come Operazione Arcobaleno (2004), Operazione Giorni di Penitenza (2004), Operazione Piogge Estive (2006), Operazione Nuvole Autunnali (2006) e Operazione Inverno Caldo (2008).

Israele ha violato l'accordo di cessate il fuoco del giugno 2008 con Hamas, mediato dall'Egitto, lanciando un raid di confine che ha ucciso sei membri di Hamas. Il raid ha provocato, come Israele intendeva, un attacco di rappresaglia da parte di Hamas, che ha sparato razzi rudimentali e colpi di mortaio contro Israele. Il bombardamento di Hamas ha fornito il pretesto per un massiccio attacco israeliano. Israele, come fa sempre, ha giustificato il suo attacco militare con il diritto di difendersi.

L'operazione Piombo Fuso (2008-2009), che ha visto Israele portare a termine un assalto via terra e aereo per 22 giorni, con l'aviazione israeliana che ha sganciato oltre 1.000 tonnellate di esplosivi su Gaza, ha ucciso 1.385 persone, secondo il gruppo israeliano per i diritti umani B'Tselem, di cui almeno 762 erano civili, tra cui 300 bambini. Quattro israeliani sono stati uccisi nello stesso periodo da razzi di Hamas e nove soldati israeliani sono morti a Gaza, quattro dei quali sono stati vittime di "fuoco amico". Il quotidiano israeliano Haaretz avrebbe poi riferito che "l'operazione Piombo Fuso" era stata preparata nei sei mesi precedenti.

Lo storico israeliano Avi Shlaim, che ha prestato servizio nell'esercito israeliano, ha scritto che:

la brutalità dei soldati israeliani è pienamente eguagliata dalla menzogna del suo portavoce... la loro propaganda è un mucchio di bugie... Non è stato Hamas, ma l'IDF a rompere il cessate il fuoco. Lo ha fatto con un raid a Gaza il 4 novembre, in cui sono morti sei uomini di Hamas. L'obiettivo di Israele non è solo la difesa della sua popolazione, ma l'eventuale rovesciamento del governo di Hamas a Gaza, mettendo la gente contro i propri governanti.

Questa serie di attacchi a Gaza fu seguita dagli attacchi israeliani del novembre 2012, noti come Operazione Pilastro di Difesa, e del luglio e agosto 2014 con l'Operazione Margine Protettivo, una campagna di sette settimane che causò la morte di 2.251 palestinesi, insieme a 73 israeliani, tra cui 67 soldati.

Questi assalti da parte dell'esercito israeliano sono stati seguiti nel 2018 da proteste in gran parte pacifiche da parte dei palestinesi, note come la Grande Marcia del Ritorno, lungo la barriera recintata di Gaza. Oltre 266 palestinesi sono stati uccisi a colpi di arma da fuoco dai soldati israeliani e altri 30.000 sono rimasti feriti. Nel maggio 2021, Israele ha ucciso oltre 256 palestinesi a Gaza in seguito agli attacchi della polizia israeliana ai fedeli palestinesi nel complesso della moschea di Al-Aqsa a Gerusalemme. Ulteriori attacchi ai fedeli della moschea di Al-Aqsa hanno avuto luogo nell'aprile 2023.

E poi la violazione delle barriere di sicurezza il 7 ottobre 2023 che circondano Gaza, dove i palestinesi languivano sotto un blocco da oltre 16 anni in una prigione a cielo aperto. Gli attacchi degli uomini armati palestinesi hanno causato circa 1.200 morti israeliani, tra cui centinaia uccisi da Israele stesso, e hanno dato a Israele la scusa che aveva cercato a lungo per devastare Gaza, nella sua Guerra delle Spade di Ferro.

Questa orribile saga non è finita. Gli obiettivi di Israele restano immutati: la cancellazione dei palestinesi dalla loro terra. Questa proposta di cessate il fuoco è un altro capitolo cinico. Ci sono molti modi in cui può e, sospetto, *crollerà*.

Ma preghiamo, almeno per il momento, che questa strage di massa cessi.

What are the hostages going to do once released and once they learn that they probably spent, at least, a year incarcerated because Blinken and Netanyahu deliberately conspired to do so for geopolitical and ideological reasons?

If I was Blinken I wouldn't visit Israel again, as for Netanyahu, he's on borrowed time anyway.

The only thing that will stop the slaughter and force "Israel" to withdraw from Gaza *and* terminate the blockade of air, sea and land ingress and egress, will be for another player, such as Ansar Allah, to strike and destroy one of the 40 high rise structures daily until the terms are met.

It's a dangerous moment for the Palestinians. The 1982 massacres in Beirut took place AFTER a negotiated treaty and agreed withdrawal by the PLO. So, who knows what will happen in Gaza?

But despite their brutality, and their inescapable air power, the IDF has performed poorly during this latest conflict. They only seem to be able to shine when attacking hospitals and patients in their beds.

The most misleading monikers that most journalists and pundits use are "Israel" and "HAMAS." It is aimed at covering up crimes committed by Jews and exposing Jews as barbaric child-killing animals. When it comes to Jew calling, calling a spade a spade is taboo. From years of experience working on university campuses, I come to the conclusion that most people (students and academics) do not make the connection between "Israelis" and Jews. They all share one angry scream: "Jews are not killing the Palestinians; the Israelis are." In contrast, they are covering Jewish crimes against the Palestinians by using the moniker "HAMAS". Hence, Western regimes and their media are using two monikers: one is to protect the Jews, and the other is to justify Jews committing heinous crimes against Palestinian women and children. A new study published by The Lancet medical journal on 9 January reveals that recent estimates show the death toll from the genocide in Gaza was most likely undercounted by 41% in the first nine months of Jewish terror. It focused on the period between October 2023 and June 2024. The study places the toll up until that point at 64,260, around 8,000 more than the current death toll. The majority (70%) are women and children. The study is blocked by the media, including the Russian media.

This horrific saga is not over. Israel's goals remain unchanged – the erasure of Palestinians from their land. This proposed ceasefire is one more cynical chapter. There are many ways it can and, I suspect, *will* fall apart.

Recommending reading from *Ha'aretz*:

**Analysis | Netanyahu Just Agreed to a Hostage Deal With Hamas. But It's Not the Deal He's Selling His Supporters**

There are two versions of the cease-fire and hostage release deal that Israel and Hamas have just agreed to. One version is the official document, which is almost identical to leaked drafts from previous rounds of negotiations. The second version is the deal as described by the office of Prime Minister Benjamin Netanyahu and his loyalists in the Israeli and U.S. media.

The gaps between these two versions represent an attempt by Netanyahu to erase a disturbing truth about this deal – that it could have been reached months ago, when some hostages who were killed or murdered over the summer were still alive. But it also tells us something worse: that even after the cease-fire deal comes into effect, Netanyahu could try to sabotage its second phase to renew the war.

Indeed, Israel is staying true to form, just as Hedges reminds us with the litany of historical precedents he cites.

But let us pray, at least for the moment, that the mass slaughter will stop.

We need that energy more than we imagine, and not just for the moment.

Witnessing the depth and breadth of Israel's evil, one finds it difficult to be at ease without recourse to transcendent power.

Much of what Chris states in this article is common knowledge. The glaring omission is the total seizure and control of successive US administrations by Jewish power elites. America cannot be regarded as a sovereign nation under such circumstances.

The main difference between the Jewish occupation of America and that of Palestine is the latter country has been reduced to rubble, but in both instances the aftermath remains the same. Self determination has evaporated in both cases, thanks to Jewish power.

The biggest danger to Israel's existence from the ceasefire will manifest when all the blocked world press is allowed to enter Gaza and reports to us what really happened on the ground.

Rebuilding Gaza will be an intermittent narrative of the recovery of martyrs and children's toys from the "cruelty" rubble of 2000lbs bombs.

As for Israel, it will continue to wash its face with its bloodlust never successful at removing the letter G for Genosider, the Palestinians survived to carve for eternity. This letter will only dissappear along with Israel and it will not be soon enough.

Israel will never rest.

There will be no viable ceasefire in Gaza due to a power imbalance between the negotiating parties.

Israel is full nation-state, with a functioning government, a seat at the UN as a member, and embassies across the world. Jews also have a media monopoly. They present distorted news stories that diminish the atrocities being committed by Israel, while attempting to portray the Palestinians as negatively as possible.

Hamas, while heroically defending their homeland, has none of these things. Although the Palestinians have truth and international law on their side, they do not own the media. Politically, Hamas is not equal to the Israeli government, so the ceasefire negotiations are not being conducted between peers and the Palestinians are at a distinct disadvantage.

Hamas should immediately reject the current ceasefire. Instead, they should demand the establishment of a Palestinian state as a precondition for any negotiations. Then, as quasi-equals, Israel and Palestine can discuss an equitable and long-lasting ceasefire, which would include billions of dollars from the Israelis to rebuild Gaza.

The Jews clearly will never agree to such terms. But, in the absence of a Palestinian state, any ceasefire is nothing more than Jewish deception. It buys them some time to re-arm and to let their troops rest, and then, with renewed vigor, the massacre of innocent civilians continues.

Hamas needs to keep fighting. Let the true nature of the Jews be made clear, for all the world to see. Besides, this is what is going to happen anyways. Hamas will keep fighting after the ceasefire charade collapses.

I am counting on it to fall apart quickly, thanks to Hamas, Islamic Jihad or some leftover independent terrorist.

This is how Netanyahu is selling the deal to his right wing supporters, that the Palestinians will create a violation and then Israel can roll back in and resume the bombing. This is Netanyahu 5-d chess!

Would've, should've, could've. All it takes for evil to succeed is for good men to do nothing. E.B.

Israel is just one of the many heads of the hydra called the global Zionist cabal.

Every atrocity Israel commits in Palestine the cabal will do to you in your nation.

You and your ancestors have been brainwashed by this cabal for over 100 years to support them. Their power grows with the help of greedy corrupt traitors who worship the deep pockets of their satanic Zionist gods.

You're still brainwashed if you see Jews and Israel as the only problem. The successful strategy isn't to focus on only one head of the hydra, hoping that cutting off that one head will defeat it, but to identify its real weakness and develop a plan that defeats the whole beast.

In typical fashion the strength of the beast is also its weakness, LYING.

In short, developing the plan to defeat the global Zionist cabal and reset the entire world into the right path is to develop and execute a plan that defeats LYING.

That's right everybody lies and that's how the beast grows. It's a fundamental tenet of Judaism and become a meme for the elites who rule the world.

Some nations still have some semblance of a justice system based on the truth, the whole truth and nothing but the truth and our ONLY hope is to defeat the global Zionist cabal in those nations first.

Criminalize lying and as punishment remove liars from power.

Only then we'll be in control of our future instead of oblivious passengers on a train wreck.

There is no point to Israel continuing this war. Except politics. Hamas, and the Palestinian people, have been destroyed. The whole reservation is in ruins. Tens of thousands dead. No Arab or Moslem state, except the small Houthi militia, came to the Palestinians aid. If the Israelis were smart, they'd end the war now and start trying to rebuild their image. But when the war ends, Bibi faces a trial and possibly prison. That's what keeps it going. Not a few kids with AKs jumping out of holes once in a while.

Whitney has the mindset that the fake Jews are invincible

And that sooner or later all goyim will be forced to publicly lick their boots

Events in Palestine have proven him wrong

There are 2 reasons for the cease fire to happen when it did

One and most important, Israel is exhausted and depleted, it does not have enough solders (baby-killers) willing to get their ass shot off fighting in Gaza

The second reason is that Trump's handlers (fake Jews) don't want the The Trumpster to be smeared with the Genocidal, baby-killer brush from his first day in office.

There is another big difference between this cease fire and previous cease fires

Israel, in no way defeated the Palestinian resistance in Gaza

Indeed the resistance reportedly has totally rebuilt its ranks of fighters

The Gaza tunnel system is still intact

Just in the last month or so, the Israelis have had 50 KIA in northern Gaza alone

Which leads to the question

What are the Israelis going to do the next time they attack Gaza?

They've used up all their tricks in the last 15 months, including mass murder of women and children (the likes of which have not been seen since Atilla the Hun).

Along with the Israeli's attempting to perfect a system of industrial torture designed to get victims to betray their own people and destroy their spirit

And of course don't forget the deliberate attempt to starve the Palestinians into accepting slavery at the boot of the fake Jew.

All the above and more have been used against the open air prison camp called Gaza and yet the squatters were forced to meet the demands of the freedom fighters

So, what are the squatters going to do next time?

The baby-killers have run out of aces.

Israel was always a long-shot and 10/7 was its death knell.

@Rich

You're delusional

The Israelis just got their asses kicked

The squatters achieved non of their goals

The resistance in Gaza has not been defeated (read the Israeli press, they admit it)

The squatters have not rescued the hostages

The Palestinians have not been driven into the Sinai

The resistance tunnel system has not been destroyed

Oh, and I don't see any new beach-front Israeli condo projects going up going up in Gaza

The squatter colony is toast and 10/7 was its death knell

No one on this planet knows the true nature of the fake Jews better than the Palestinians

They've seen every trick the baby killers have up their sleeve

If the Israelis start bombing Gaza, immediately rockets will commence to fly from both Gaza and Yemen

Then what are the baby killers going to do?

Reinvade Gaza?

Not a fucking chance

| Israel, going back decades, has played a duplicitous game.

Its like continually lending money to friends and family and never getting it back. In crude terms its called getting fucked over.

In similar circumstances the fault lies with the lender/believer who takes the high moral ground. They want to be screwed and scream “I believe your promises. Please, oh please , fuck me ” and they get what they ask for.

Its not that Jews are terribly smart, its that the Goy and Moslems believe that what they consider righteous and fair is also considered righteous and fair by the Tribe. If they have not learnt by now they deserve getting reamed.

If you are a good man and have to deal with scumbags you have to adjust your behaviour accordingly, because, what you consider moral is bullshit to the other side especially if they are Jews.

Pie in the sky. Jewish media smoke and mirrors for some better opinion of Jews after the genocide.

Israel's performance to any treaty, pact or agreement with the Middle East has been a farce historically.

And what will Palestinians have to go home to? Obliteration. You think the Jews will make it easy to rebuild?

The final solution is out or dead.

@One Nobody

Ron Unz said it best:

As a rough analogy, a small quantity of uranium is relatively inert and harmless, and entirely so if distributed within low-density ore. But if a significant quantity of weapons-grade uranium is sufficiently compressed, then the neutrons released by fissioning atoms will quickly cause additional atoms to undergo fission, with the ultimate result of that critical chain-reaction being a nuclear explosion. In similar fashion, even a highly agitated Jew may have no negative impact, but if the collection of such agitated Jews becomes too numerous and clusters together too closely, they may work each other into a terrible frenzy, perhaps with disastrous consequences both for themselves and for their larger society. This is especially true if those agitated Jews begin to dominate certain key nodes of top-level control, such as the central political or media organs of a society.

This surely also applies to Israel, the largest concentration of Jews in the world

The jews won't stop until every muslim or arabic person is wiped from the face of the earth.

Then they will intensify their efforts to snuff out everyone else who has a brain or believes in human rights. Unfortunately, the west has been a tool in the jews' efforts, but the west is being snuffed out as I type by jew supported destruction of the west.

After they genocide anyone who thinks jews aren't superior, they will enslave the entire earth. Actually, they have already enslaved the west, which carries out their evil plans.

I have learned about it from an essay by Ron Unz. Unsurprisingly, MSM media and the “alternative” media eagerly accept the much lower number of Palestinian victims, if ever mentioning such. Thanks!

“The Lancet is one of the world’s oldest and most prestigious medical journals and a few weeks ago it published a short piece conservatively estimating that relentless Israeli attacks and the complete destruction of Gaza’s civilian infrastructure may be responsible for nearly 200,000 civilian deaths, a figure many times larger than any previous total mentioned in the media.”

I agree. Palestinian state is a pre requisite for engagement. How can you have an agreement when the parties are not EQUAL?

Why did we allow such an inequitable settlement originally? How can any of the decision by the rest of the EU ever be respected? How can any of the EU trust their neighboring country knowing that the decisions of EU courts are disrespected and trashed?

This is an impossible situation: a life raft of desperate lives on an endless sea, hoping the passing tankers, liners, pleasure cruisers, fishing trawlers, all with passengers gawking at the helpless wave-tossed survivors actually care enough to rescue them.

If you mean not "rebuild" but invent a whole new image, that implies sacrifices the Chosen are unable to make:

- renounce Jewish supremacism,
- burn the Talmud,
- repent for their crimes against humanity,
- offer to pay compensation to the Palestinian nation in Palestine and in exile,
- and declare that now they are ready and willing to become "people among people" and insist that this time they really, really mean it, they're not dershowitzing...

While he and other Indians working alongside him do not look out of place on the expansive construction site, they are relative newcomers to Israel's building industry.

They are part of an Israeli government effort to fill a void left by tens of thousands of Palestinian construction workers barred from entering Israel since Hamas's unprecedented October 7, 2023 attack.

If that attack had not happened, this site, with its slowly emerging high-rise towers, homes, roads and pavements, would have teemed with laborers speaking Arabic — unlike the Hindi, Hebrew and even Mandarin of today.

'But the subsequent phases [of the Camp David accords] ... were never honored.'  
— Chris Hedges

Guess who kept their end of the bargain, though: American taxpayers. They were innocent third-party bystanders, thousands of miles away, who merely hosted the negotiations. But in a grand gesture of magnanimity, Jimmy Carter put them on the hook to perpetually pay Israel, Egypt and Jordan — in a ratio of about 3:2:1 — to make nice to each other.

As the late Carter is being interred, this 'deal' [*such a deal!*] has cost a cumulative quarter trillion current dollars. Last year, Israel radically upped its tribute from \$4 billion to \$30 billion. Genocide ain't cheap, you know!

Somebody should have told the highly religious Carter that it's unethical to take other people's money at gunpoint, give it away to foreign despots, and then personally benefit with awards and praise such as the Nobel peace prize.

Want to honor the memory of Jimmy Carter? Cut off foreign aid to Israel, Egypt and Jordan. Never pay them another penny stolen from decent Americans who could care less about the violent, depraved bazaar of the middle east.

Never trust a Zionist, never even trust a Jew.

This is the same technique they used with the fake 'ceasefire' in Lebanon which they are violating everyday since November. The Lebanese and Hezbollah have been involved in empty talks about it without any action (which would normally be retaliations).

What Israel is doing in Lebanon is destroying Hezbollah infrastructures and killing its fighters and no one retaliates.

They certainly think they'll be able to do the same with Gaza, but Hamas, Islamic Jihad and others will retaliate.

The Yemenis are already warning the Zionists and their US/UK poodles about it (while striking them all):

Yemen's Winged Missiles, Combat Drones Strike Tel Aviv, Eilat, Ashkelon  
<https://english.almanar.com.lb/2315491>

"The Yemeni Armed Forces confirm their readiness for any developments or American-Israeli escalation against our country and that they will continue to monitor the developments of the situation in Gaza and will take appropriate escalation options in the event that the enemy breaks the agreement or escalates its operations against the oppressed Palestinian people in Gaza," the statement added.

Yemen's Ansarullah Leader Warns: Gaza Ceasefire Hinges on Israeli Enemy Actions, Violations Prompt Response

If Hezbollah, Iran, Iraqi resistance had been doing the same, Syria would be still Syria, Israel would be on its knees and Hezbollah would have ejected them from Lebanon.

Hamas and others know the Zionists will never respect their words, their best approach is nevertheless to get as many Palestinian prisoners freed, as much aid and reconstruction they can get and as many Palestinians back (and replenish their arsenals and forces) until the next aggression from the Zionist invaders.

Never trust a Jew.

@Low-carb Political Movement

Thanks, although the death toll was reported last April 2023 to be over 111,000 and so the death toll now is probably in the 300, 000 range and will never be really known as 10s of thousands are buried under the rubble of Israeli and ZUS bombing and I say ZUS bombing as ZUS planes and bombs were used.

This is not our government, it is Israels proxy death machine under the control of zionist demons from the depths of hell, Americans like myself are horrified at the genocide that Israel has done and will continue to do under zionist front man Trump , just like zionist front man Biden and the zionist controlled congress aka the lower house of the kneset, but there is not a damn thing we can do about it , but protest .

According to the article, Israel's still far short of replacing the pre-genocide quantity of workers.

Also unmentioned is the fact that Israel still has to foot the cost of these workers' accommodations, making it more expensive for the country in the long run.

Trumpstein will back Netanyahu? Almost definitely. But it might not be as unconditional as with previous administrations.

Trump's second term will probably be bolder (and more independent) than his first. It's very possible that the dark picture of Israel that is emerging worldwide (due to Israel's remorseless genocide in Gaza) will allow Trump to impose a more evenhanded resolution to the never-ending Jew v. Gentile war(s) in Palestine and beyond.

The Israelis have been fighting in Gaza for 15 months

In just the last few weeks the the Palestinians have killed almost 50 IOF solders in northern Gaza

The Israelis (as is being reported in the Israeli press) have pointed out that this is the 3rd time the Israelis have battled in this particular area.

Each time the Israelis leave they claim to have cleared out the resistance, only to have to return because they never did clear out the resistance

Case in point

Just a few days ago a convoy of hi-ranking IOF were traveling through an area that they believed they had completely cleared of resistance fighters

Because of this belief they were traveling in unarmored Humvee type vehicles

Little did the Israelis know that the Palestinian resistance had set up 2 large road-side remote controlled bombs along the road the Israelis travel in their unarmored vehicles

The Israelis were ambushed and several killed in the first explosion.

Then the rescue convey was also hit by a roadside bomb causing dead and wounded among the IOF

You can bet that this attack shook the IOF to its core

Why?

Because the IOF do not know how the resistance got past Israeli security and planted these bombs

They say that the bombs were planted during recent stormy weather and they suspect the resistance accessed this “safe” area via an undiscovered tunnel.

What does this mean?

It means that no where in Gaza is safe for an Israeli

This scares the shit out of the IOF and they are getting very tired of this endless war of attrition.

Israel also has to rely on mercenaries to do the grunt work in Gaza

Any so-called country that has to use mercenaries to do its fighting for it is at a big disadvantage

The only tactic the Israelis have is the mass slaughter of civilians

And that tactic is reaching a point of diminishing returns.

Again I say Israel was always a long shot

For God's sake, Israeli is surrounded by 450 million fake Jew hating Arabs

How is Israel going to keep a lid on these Arabs forever

It can't.

Ok, this is why they killed 80 people two days ago when a cease-fire was announced....

“Israel says that its forces, not the Red Cross, will transport Palestinian prisoners released under the Gaza deal to ensure that Palestinians “do not deviate from the strict security guidelines and **refrain from any expression of joy** within Israeli territory.”

**the Jews hate it when you show any expression of joy! So they will bomb you and kill you!**

To be clear-I am mostly on Israel's side because it is, warts and all, a civilized country with norms & successes of the Western civilization.

All Arab countries are either theocracies or brutal secular dictatorships & the world would be better off without Arabs- and all Muslims. They are enemies of modern civilization & are simply indigestible to the rest of the civilized world.

Blacks and Muslims are the pest of humanity.

That said- I don't see how Israel can "defeat" Hamas without cleansing them. The British couldn't defeat the IRA during & after the Troubles.

Simply, all normal countries should kick out Muslims, isolate them & let them languish in the aggressive impotent lunacy called Islamic civilization.

Well, here's an ironic little denouement to Biden's term:

### **Biden won't enforce TikTok ban, official says, leaving fate of app to Trump**

WASHINGTON (AP) — President Joe Biden won't enforce a ban on the social media app TikTok that is set to take effect a day before he leaves office on Monday, a U.S. official said Thursday, leaving its fate in the hands of President-elect Donald Trump.

Congress last year, in a law signed by Biden, required that TikTok's China-based parent company ByteDance divest the company by Jan. 19, a day before the presidential inauguration. The official said the outgoing administration was leaving the implementation of the law — and the potential enforcement of the ban — to Trump. [...]

Trump, who once called to ban the app, has since pledged to keep it available in the U.S., though his transition team has not said how they intend to accomplish that.

<https://apnews.com/article/tiktok-ban-trump-executive-order-1e95d9836bf6f8c0c245ed1c3234d968>

TikTok's been among the sharpest thorns in the side of Team Israel since the onset of the genocide. I'm sure they were counting on it going dark just before the ceasefire comes in to effect.

I don't believe this 'ceasefire' will last too terribly long. israel will find some **\*excuse\*** to resume hostilities. greater israel is a biblical prerogative according to these murderous loonies. They won't stop until either israel is entirely humbled or they achieve their goals – an israel that extends north to Iraq, encompassing most of Syria, Jordan and Lebanon.

Humbling israel is a dicey thing. They are a mad dog. Not just trying to scare everybody by pretending they're a mad dog, they really are a mad dog. If Greater israel isn't realized, they will let go with their nukes, I have no doubt about that.

This point is obviously debatable, but I wonder if israeli nukes are the reason the U.S. is so completely timid when it comes to policy on israel. Yes, I realize the hold this shitty little country has over america's body politic, but I also know that there are indeed americans in high places that completely understand how detrimental israel is to U.S. interests.

I would think that with the level of Sinophobia in america, they would simply cut their Middle East losses enabling them to concentrate their phobias completely in the Pacific.

Please read the summary of the stipulations of the agreement signed by Russia and Iran after three years of negotiations.

I would like to hear a rational (not hysterical) explanation of why I am wrong about this agreement, because I WANT to be wrong, when I say, *"The mountain has labored and gave birth to a mouse."*

I was hoping to see *mutual defense* stipulations. To me that roughly means something like "If a bully attacks you, I'll jump to defend you and help you put the bully down and trust you to do the same for me."

Instead I see:

*"If one [party] is subject to aggression, the other shall not provide any military or other assistance to the aggressor that contributes to the continuation of aggression," and strive to resolve the conflict through diplomacy on the basis of the UN Charter."*

and:

*"We will not allow any party to use our territory to launch attacks against you"...* I suppose that's reassuring to Iran since USrael will not be able attack Iran from Russia...

*"The Comprehensive Strategic Partnership treaty between Russia and Iran isn't an outright military alliance, committing them to fight on one another's behalf in battle, but is basically the next best thing: at the United Nations and in other international forums, we will defend Iran's interests,* retired Russian Army colonel Viktor Litovkin told Sputnik.

A biggy... Claptrap at the UN is the next best thing to an "outright military alliance"!

As for weapons, the good colonel said, *Russia could help plug gaps in Iran's powerful air defenses, via the delivery of Sukhoi Su-30 jets, and/or Pantsir, Tor, Buk or S-400 systems, for example. Russia, for its part, could benefit from Iran's vast domestically-developed arsenals of missiles and drones."*

Iran has been steadily providing weapons (drones) to Russia but Russia 'COULD,' not finally 'will', provide those weapons to Iran ...

Iran should hurry up and make some nukes. it is the only deterrent to keep the rabid predators away.

Ask the boy with the bad haircut in North Korea for help. But hurry.

You people seem to not realize that if Israel gets pissed off enough they could care less if Iran has nukes. What do you NOT understand about the Samsom option? “if we go down, we taking you with us!” Yet and still a lot of you believe that having Nukes will prevent Israel from still attacking them. The U.S. has been throwing missiles at Russia despite Putin’s constant warnings. They really don’t give a flying fuck. Even if Putin was serious that still wouldn’t prevent the assholes in DC from attacking Russia. That’s the whole point of them doing that.

They were trying to provoke him to nuke the U.S. so they can sit back and say “See how fucked up Putin is? He just nuked us and killed millions of Americans!” If Putin had of been anybody else (Kim of NK for instance if he had the same number of nukes as Russia) he would have nuked the shit out of the U.S. by now. Having nukes don’t prevent assholes from still attacking you. The U.S. doesn’t give a shit about it’s own citizens, so if a lot of Americans die, oh well. There are no fake Jews & the Irish never presented a threat to anyone. This obsession with Jews & Israel is a sure sign of cognitive derangement.

Islam is the pest, and blaming Jews for suicidal policy of Western kowtowing to these barbarian hordes is beyond lunacy. Immigration even worse, that sign of derangement that has been plaguing Western societies for half a century. No one “engineered” that, it is a sign of strongly decadent trends in exhausted democracies.

Sane Western countries like Hungary & Poland are for Israel and against Arab barbarians, while the US is playing games left and right, interested only in short term profit. In this imperfect world, one has to deal with fuckistans like Egypt, Algeria, Iraq, Pakistan, Jordan, ..and Arabs in Palestine.

No one among Arab countries wants other Arabs (Syrians, Palestinians,...)- they are waging war against the West. With or without Israel. That’s who they are.

A reasonable man can differentiate between irritation & danger. Most (liberal) Jews are just irritating, when they act according to their clannish, sometimes supremacist ideas. It’s no more than itchy.

Muslims, on the other hand, are a plague. No way to go around it. They are enemies of our civilization, they hate us & they are in conflict with anyone non-Muslim (except when they are too afraid to show it).

Itch vs cancer.

Cole, whichever his weird ideas, was right...

[https://www.takimag.com/article/nazis\\_vs\\_muslims\\_who\\_hateth\\_the\\_most\\_david\\_cole/](https://www.takimag.com/article/nazis_vs_muslims_who_hateth_the_most_david_cole/)

.....

It gets worse. According to a 2006-07 Pew study, here’s the level of support for suicide bombings among young Muslims (18 to 29 years old) living in non-Muslim nations:

U.S.: 26%

Great Britain: 35%

France: 42%

Germany: 22%

Spain: 29%

.....

And as bad as the above figures are, there’s one more comparison that can be made, and it’s truly chilling. Professor Peter Merkl’s landmark study “Political Violence Under the Swastika: 581 Early Nazis” (Princeton University Press, 1975) used contemporaneous biographical studies and personal documents to profile five

hundred and eighty-one early, founding members of the Nazi Party (the hardcore Nazis who shaped the party and brought it to power). Merkl provided statistical analysis of the founding Nazis' political, societal, and religious views: 33.3% of these Nazi Party members showed no interest in anti-Semitism. 14.3% expressed "mild verbal clichés" regarding Jews. 19.1% displayed "moderate" disdain for Jewish cultural influence in Germany. But only 12.9% advocated "violent countermeasures" against Jews.

If you take Merkl's findings and measure them against the Pew survey results, you're left with a truly startling conclusion: **There are more Muslims in today's world who support violence in the name of defending Islam than there were founding members of the Nazi Party who supported violence against Jews.**

**The average Rahman-in-the-street is more likely, today, to think you should die for being an infidel than the average veteran Nazi Party member, back in the 1930s, was likely to think a Jew should die for being a Jew.** That's stunning, and very, very ominous.

1. The picture of poor, suffering Palestinians is a joke. They are a mixture of various Arabs & not a people at all. Not that there's anything wrong with that – but I don't see why I would care about some Arabs being anywhere around Israel (Jordan, Egypt, occupied territories,...)- even 20% of them in Israel proper? Palestinian Arabs are Arabs. They are, genealogically, a mixed middle eastern type like Druzes & similar Levantines (and Jews). They do not possess historical continuity of memory that constitutes identity. Jews, on the other hand, are transplanted Levantines who have retained their identity from past ca. 3000 years (script, their scriptures, customs, law, food taboos, language, ethics, even clothing...). Palestinians do not write in Hebrew script; they don't speak Hebrew or Aramaic; they don't have emotional connection to Jerusalem in the same sense & intensity as Jews do; .... In other words- genealogy is of no importance, identity rooted in history is everything.

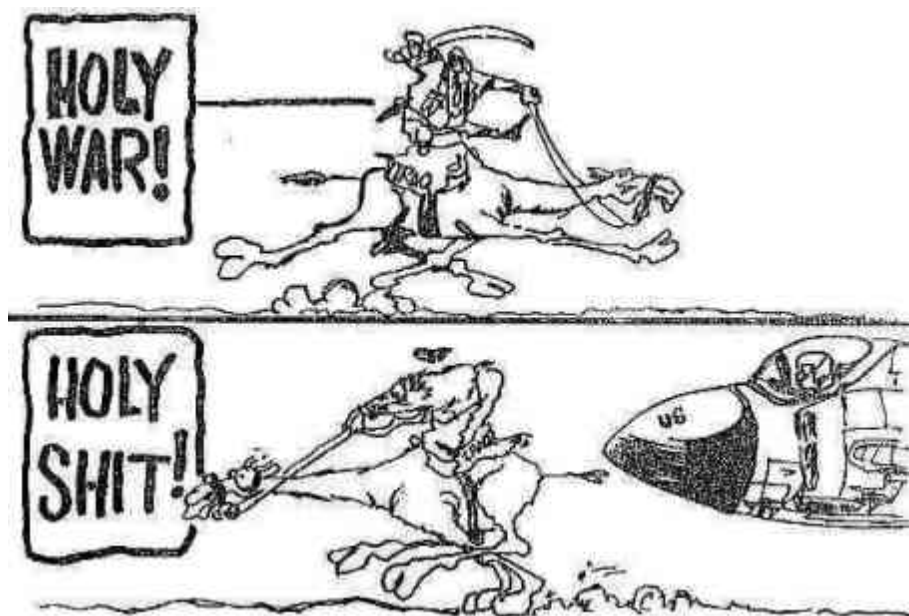

2. Zionism is a typical late 19th C East European national movement among Jewish masses & nationally conscious Jewish intellectuals. Despite all their congresses, despite the Balfour Declaration- there would be no Israel now had not Hitler come to power. Jewish nationalists insisted on their aliyahs in the beginning of the 20th C, but it is evident that there would have been not enough Jews in what is now Israel, had not Hitler begun with his persecutions in 1933. So, technically, Hitler acted as the catalyst for swelling Jewish population in Palestine/Israel, both before WW2 & after (DPs). Now, there were enough Jews in the British mandate for a small Jewish state. No grand Zionist plan could have achieved that. Only Hitler. Arabs, naturally, resisted the influx of foreigners- for them, hated Westerners & completely alien. Instead of letting Jews have their statelet, they attacked them with the intention of destroying them completely. And what should all those Jews do, let Arabs slaughter them? True, they came; true, it was their ancient homeland- unlike Arabs'; true, there would not have been enough demographic Jewish material, had Nazi persecutions not have happened. Those Jews did not settle in an empty land, but also, that land was not clearly defined & its population possessed only religious consciousness, which is backward. Most Jews simply bought land from Arabs. Arabs then went to wars. And they lost.

Israel is a great example of an almost unimaginably successful society & culture, from science, their national culture, to technology, innovation, agriculture... everything. If one looks at any Arab or Muslim country, one can find only backwardness, shithollery or corrupt tribal leaders, combined with hysterical aggressiveness, lunacy & stone age mentality (honor killings, their stupid women who are nothing but wombs, mass hysteria during their meetings, ...). Even more impressive is the resurrection of Hebrew language, which has been just a written language of Jewish literature, and became, after more than 2000 years, modern vernacular – a situation unparalleled in history. And that, by now, ca. 7 million

people have learned to use it from a scratch- this is virtually a miracle. The existence of Israel is astounding. Apart from the military & similar stuff, Israelis have succeeded in agriculture (where they have been absent for centuries), in modern technology in most areas (say- USB stick), in irrigation, in medical innovation). It isn't for nothing they are dubbed start up nation. It is easy to compare their land, the quality of life there, how people work, learn, teach- with the way of life of surrounding peoples, from Egypt to Iran. Israel is a shining example of a modern powerful creative civilized society. All Arabs, including Palestinians, are basically- lunatic stone age hordes that should be dumped to their desert shitholes.

3. there is no equivalence between Nazi persecution of Jews & Israel fighting Arabs, especially Palestinians. Nazis have exterminated ca. 1/3 of European Jews, and would have murdered them all if they could. Unlike that situation, Israelis never intended to murder, on any scale, any number of Arabs, including Palestinians. They accepted the UN plan of the partition of Palestine; they attacked Arabs in 1967 only because Arab exterminationist rhetoric & Nasser's war plans have risen to the level of immediate aggression with the aim to completely obliterate Israelis from the face of the earth. Then, in Nazi Germany Jews had been persecuted, tagged, their life boycotted, ... In Israel, Arabs are freer & live better than in most Arabs countries; In Germany, Jews were expelled from universities- in Israel, on the other hand, they give additional lectures to Israeli Arabs so they could enter prestigious Israeli universities, where they, Arabs, constitute ca. 20% of the student population (which is virtually the same as the general population). Could one imagine that Nazi Germany would promote Jewish students in Heidelberg or Goettingen? As regards occupied territories, Arabs have their own school system with universities. Can one imagine that Nazi Germany would have allowed higher education in occupied Czechoslovakia, Poland or Russia? So these parallels between Nazi Germans & Israelis are simply deliriously lunatic.

Israelis should have dumped all Arabs in 1967 to Egypt & Jordan & there would have been peace now. Or, concisely:

*"You people seem to not realize ..."*

For starters, when you address one commenter as "you people" you place yourself high—as the wise one above a multitude of dummies. Yours, however, despite your high self-regard, is just one person's opinion, like mine.

Here is why (simply just IMO )I think you are wrong:

1. Israel, all its loud threats aside, cannot do anything without the US. It would never attack Iran without having the US full assurance that the US will do the heavy lifting. So it is not what Israel would do but what the US would do.

Let's see then:

2. The US actions against Russia so far are based on the US "experts'" confidence that they can "read" Putin, and on taking Putin's cautious avoidance of escalation that could lead to a nuclear conflict as weakness. They consider Russia **"predictable."**

What both Americans and Israelis, or perhaps I should just say "USrael," fear in an adversary, even a small one, as much as its nuclear capability is its **unpredictability.**

Look at how they deal with North Korea. Sanctions sky high but no military actions. Wouldn't they like to take that thorn out of their side once and for all? Turn it into a thorn in China's flank? They'd love to. But little Kim with a bad haircut is an insane maniac to them, a completely unpredictable mad man with nukes. So they only lob sanctions at him from afar. Trump schmoozed him but did not and will not attack NK.

It is true that, as you say,

*" The U.S. doesn't give a shit about it's own citizens, so if a lot of Americans die, oh well. They'll shrug it off and pretend it was a tragedy that affects them like they did with 9/11 but were cheering and toasting behind close doors."*

That is predicated on feeling certain of obtaining the intended result, which with the American public was a no-brainer. Not so if you have no idea what a "mad man" on the other side would do.

*" In this day and age Nukes are a stupid deterrence."*

Not true. They wouldn't have been/be so determined to prevent Iran from having them.

Iran should also take a lesson from NK in *talking less!*

All of Iran's public insistence on the "fatwa" against nuclear weapons was unhelpful. It made the hounds more confident that they got Iran's number. Like Putin 's legalism.

Iran should get nukes ASAP, and should unashamedly adopt Israel's policy of "ambiguity"- neither admitting nor denying they have them.

Just as I thought...

What at first was just an occasional sensation of a "stitch" in the side is now a permanent dull pain radiating from the right upper quadrant of your abdomen. You try to ignore it and distract yourself by posting long diatribes of insane judaic hatred, but that only aggravates your condition: accelerated bile production that will soon burst your choledochal duct.

I summon up images of patients like you who in the end only got relief from high doses of morphine, still hoping to feel some empathy for you...

Your argument is that Muslims are my real enemies and not fake Jews

I disagree

Here's one big reason

It was fake Jews that bamboozled Americans into WW2 using the power of Jewish Hollywood and the Jewish Press

Americans were minding their own business on this side of the world and wanted to stay out of another European war

But because Hitler and Germans were exposing fake Jew perfidy in Europe

400 thousand mostly white American men had to die

In a war serving their own mortal enemies

It wasn't the Muslims behind that

It was the fake Jews

BTW to all you observers of world events

Do any of you still believe that the Israelis let 10/7 happen

And that if Israel had wanted it could have stopped 10/7 from happening?

Does anyone still spout such absurd nonsense?

You Israelis just got your clock cleaned in Gaza

And you're spouting chutzpah.

The European squatter colony was always a long shot and 10/7 was its death knell

Brainwashed is the answer

How to fight that?

Discredit the foundation of their power; the Jewish Press (mainstream media)

By always calling it the Jewish Press.

It's true.

True! I like your posts, except for your Anti-God messages.

Incarceration is spelled with a C, again I like your posts or I wouldn't even bother telling you that.

Quite wrong.

Muslim migration into Europe is a Jewish Plot.

Muslim migration also the consequence of the violent foundation of Israel and the policies adopted by western politicians in thrall to Jewish donors and/or actual Jews administering domestic policy.

Saddam, Assad and Gaddafi among other political figures more obscure were removed to make Israel safe. Expending white blood and treasure to secure Israel is a real problem and it's only gotten worse over the last 30 odd years.

@Bardon Kaldian

‘Israel is a great example of an almost unimaginably successful society & culture, from science, their national culture, to technology, innovation, agriculture... everything. ‘

Much the same could be said of Nazi Germany...and they committed much the same crimes.

And here you are, praising the reenactment.

There are, of course, two major distinctions. The Nazis are behind us. Their crimes are history. Israel is alive and kicking.

Then we opposed the Nazis. We support Israel. In fact, without us, it wouldn't have come into being, and it couldn't continue.

I wouldn't discount the "**Samson Option**".

The zionists are stupid enough to try it, especially if the world goes against them and demands a real solution to the "*Palestinian situation*". Notice that I did not call the Palestinian situation a "*problem*" as it is the foreign zionist jew interlopers who are the "problem".

Keep in mind that no country that possesses live "*nukes*" will be attacked or invaded. **North Korea, India, Pakistan**, and other countries are smart to keep their nukes under wraps and not succumb to the demands of "*international nuclear arms inspectors*". This is the only thing keeping the world "*deep state*" from attacking them.

That being said, the same should apply to israel (but does not). Every country's nukes are within the borders of their respective countries, *but not so for israel*.

You see, israel's nukes are already "*in place*" in cities around the world and as such, *no delivery systems are needed*. Israel's nuclear "*Damocles swords*" are ready to go at a moment's notice. This is a major reason why israel refuses to allow "*international nuclear arms inspectors*" to perform inspections. Israel could not account for all of its nukes without revealing that they are not on israeli (Palestinian) soil.

The next "9-11" will be a nuclear detonation (not an exchange or other conflagration) in a major American or European city. Look for an israeli nuke to be detonated in **Houston, Chicago or Atlanta**. "**Jew York City**" is "off-limits" as it is the jewish seat of power in the USA. European targets will be **Rome, Brussels or Paris**. Jews would LOVE to destroy the seat of the **Roman Catholic Church**, so look at **Rome** as being a prime target.

Of course, the nuclear detonation will be blamed on an Arab country, passports being found in the "*ruddle*", just as with 9-11 (yeah, right).

If I had my way, israel would be "*embargoed*" until it "*comes clean*" and produces ALL of its nukes for international inspection.

Kidnapping unarmed civilians and killing 1,200 in a sneak attack is the way terrorists operate and is why they are called hamASS.

*"Rapire civili disarmati e ucciderne 1.200 in un attacco a sorpresa è il modo in cui operano i terroristi ed è il motivo per cui vengono chiamati hamASS."*

Rapire civili disarmati, compresi minorenni, a MIGLIAIA, gettarli in prigione e tenerli lì per ANNI senza processo =(“arresto preventivo”), torturarli, violentarli e ucciderli è il modo in cui gli EBREI operano nella Palestina occupata, ed è il motivo per cui sono chiamati EBREI ISRAELIANI, così gli ebrei possono affermare di essere... diversi, vale a dire “sionisti che hanno corrotto l'ebraismo”.
