**Domanda 1**— Martedì, il presidente Trump ha affermato che gli Stati Uniti smetteranno di bombardare lo Yemen perché gli Houthi hanno affermato che "non faranno più saltare in aria le navi". Trump ha aggiunto che gli Houthi "hanno capitolato" e "non vogliono più combattere". **Trump sta dicendo la verità? Gli Houthi si sono "arresi"?**

**Aisha Jumaan** — In base alla dichiarazione allegata del Ministero degli Esteri del Sultanato dell'Oman, sembra che il cessate il fuoco tra Stati Uniti e Ansar-Allah a Sana'a sia stato raggiunto di comune accordo. Ansar-Allah, in un'intervista rilasciata a DropSite da uno dei suoi leader, ha dichiarato: "Non ci consideriamo in guerra con il popolo americano", ha affermato Mohammed al-Bukhaiti, membro dell'ufficio politico di Ansar-Allah e portavoce di lunga data degli Houthi. **"Se gli Stati Uniti smetteranno di colpire lo Yemen, cesseremo le nostre operazioni militari contro di esso".**

Questa è stata una risposta alle dichiarazioni del Presidente Trump e del Segretario alla Difesa, secondo cui avrebbero smesso di bombardare lo Yemen se Ansar-Allah avesse accettato di smettere di attaccare le navi statunitensi. "La scelta per gli Houthi è chiara: **smettete di sparare alle navi statunitensi e noi smetteremo di sparare a voi**", ha scritto Trump in un post su TruthSocial il 31 marzo. Il Segretario alla Difesa Pete Hegseth ha dichiarato in un'intervista a Fox News: "Nel momento in cui gli Houthi diranno: 'Smetteremo di sparare alle vostre navi, smetteremo di sparare ai vostri droni', questa campagna finirà. Ma fino ad allora, sarà implacabile".

Sulla base di quanto riferito dallo Yemen, Ansar-Allah ha compreso che **l'accordo non implica la cessazione dell'adesione di Israele.**

In una recente dichiarazione, il presidente Trump ha affermato: "Ci fidiamo della loro parola... Li abbiamo colpiti duramente. Hanno avuto una grande capacità di resistere alle punizioni", ha affermato. "Si potrebbe dire che c'è molto coraggio in loro".

Un portavoce del Ministero degli Esteri ha dichiarato oggi che, a seguito dei recenti colloqui e contatti condotti dal Sultanato dell'Oman con gli Stati Uniti e le autorità competenti a Sana'a, nella Repubblica dello Yemen, con l'obiettivo di una de-escalation, gli sforzi hanno portato a un accordo di cessate il fuoco tra le due parti. **In futuro, nessuna delle due parti prenderà di mira l'altra, comprese le navi americane, nel Mar Rosso e nello Stretto di Bab al-Mandab, garantendo la libertà di navigazione e il regolare flusso del traffico commerciale internazionale.** Il Sultanato dell'Oman esprime la sua gratitudine a entrambe le parti per il loro approccio costruttivo che ha portato a questo risultato positivo e auspica che porti a ulteriori progressi su molte questioni regionali, verso il raggiungimento di giustizia, pace e prosperità per tutti.

**Domanda 2 —** Puoi approfondire la tua prima risposta: **l'accordo tra Stati Uniti e Yemen prevede che alle navi da guerra statunitensi sarà consentito attraversare il Mar Rosso anche se Trump continua a fornire bombe e armi a Israele?**

**Aisha Jumaan —** Non conosco i dettagli dell'accordo raggiunto tra Stati Uniti e Ansar-Allah. Tuttavia, in base a un articolo di Haaretz, **molti dei trasferimenti di armi avvengono per via aerea. Inoltre, sembra che la maggior parte del carico marittimo di armi diretto a Israele passi attraverso il Mediterraneo, raggiungendo Haifa e Ashdod.** Il porto di Eliat è stato dichiarato fallito a causa del blocco del Mar Rosso.

Un ritmo vertiginoso, poi un calo: come le spedizioni di armi statunitensi a Israele sono rallentate, Haaretz. I dati di tracciamento dei voli disponibili al pubblico mostrano quante spedizioni di armi statunitensi sono arrivate in Israele ogni mese dall'inizio della guerra di Gaza, rivelando un forte aumento e poi un graduale rallentamento del ritmo delle consegne.

**Domanda 3—** Il Pentagono ha dichiarato martedì che le forze del Comando Centrale degli Stati Uniti hanno colpito 1.000 obiettivi in Yemen dal 15 marzo, uccidendo circa 200 civili yemeniti e distruggendo gran parte delle infrastrutture critiche del Paese. **Quanto è grave la situazione sul campo per la gente comune?** (Cibo, acqua e forniture mediche sono sufficienti?)

**Aisha Jumaan —** Il numero di civili uccisi e feriti potrebbe essere molto più alto di quello riportato. È possibile che molti dei feriti siano morti a causa delle gravi ferite e della mancanza di cure mediche adeguate in Yemen. Il sistema sanitario yemenita è operativo solo al 50%, poiché la maggior parte dei centri sanitari è stata bombardata dalla coalizione guidata dall'Arabia Saudita.

Il secondo porto più grande per l'importazione di carburante e gas è stato distrutto dagli Stati Uniti, causando gravi carenze di carburante e benzina. Le persone aspettano in coda fino a 12 ore e ancora non riescono a fare rifornimento per le loro auto. Ecco cosa ha scritto una persona a Sana'a .

Questa persona dice che sono andato a fare la fila per fare rifornimento e quando sono uscito c'erano 45 macchine davanti a me.

Gli Stati Uniti e Israele hanno bombardato il porto di Hodeidah, rendendo difficile l'importazione di cibo, carburante e beni di prima necessità nel Paese. **Circa 17 milioni di persone in Yemen necessitano di assistenza umanitaria. Milioni di bambini yemeniti soffrono di malnutrizione. Questo influirà sul loro sviluppo cognitivo e sulle loro generazioni future** .

Ecco le preoccupazioni espresse dal dottor Alwazir.

È una figura politica di spicco nello Yemen. Ora vive fuori dallo Yemen.

Oggi la politica è entrata in gioco e ha prodotto risultati positivi nell'accordo di cessate il fuoco tra Yemen e America. Tuttavia, le enormi perdite infrastrutturali non possono essere facilmente compensate, e sono tutte molto significative, che si tratti della distruzione del porto di Ras Isa o di quella del porto di Hodeidah. Entrambi i porti sono la linfa vitale del coraggioso popolo yemenita e gli unici sbocchi per l'economia. Questo è ciò che mi rattrista profondamente e mi addolora profondamente, a causa delle gravi conseguenze per le persone e la loro vita quotidiana. **Il nemico sta cercando di soggiogare la nostra economia e costringerci a importare cibo, medicine e altri beni di prima necessità, oltre a petrolio e gas, dal porto di Mokha e dal governatorato di Ma'rib. Questo metterà la nostra economia nelle mani di altri e la porrà sotto la loro supervisione e il loro controllo.** La distruzione dei cementifici ha inoltre danneggiato gravemente la nostra economia, che è un altro importante centro nevralgico per l'economia. Ha inoltre danneggiato tre importanti centrali elettriche, le infrastrutture dell'aeroporto di Sana'a e tre aerei Airbus. Affiliato a Yemenia Airlines...

Tutto questo mi addolora e mi addolora, ma saremo pazienti e cercheremo ricompensa e risarcimento, e forse Dio porterà qualcosa di nuovo dopo ciò...

Menziono questo solo perché è necessario trovare alternative di importazione diverse da quelle a cui il nemico sta cercando di portarci. Dobbiamo riflettere a fondo sui mezzi per raggiungere questo obiettivo ed esercitare tutta la pressione possibile per ottenerlo. Dobbiamo anche includere la questione del risarcimento per questi danni ingiusti in qualsiasi prossimo incontro politico o negoziato, e coinvolgere altre parti o paesi affinché facciano pressione per ottenere un risarcimento per ciò che è stato distrutto, proprio come lo Stato dell'Oman ha mediato tra noi e l'America in questo accordo, cosa che ho ripetutamente affermato in diversi articoli precedenti e in altri...

Allego anche una presentazione che ho tenuto all'Università del Wisconsin sull'impatto della guerra degli Stati Uniti nello Yemen.

**Domanda 4—** Israele è molto arrabbiato con Trump per aver concluso un accordo con lo Yemen senza consultarlo. Il titolo del **Times of Israel di mercoledì recita: Trump ha abbandonato Israele con una tregua a sorpresa con gli Houthi.** Questo non promette nulla di buono per l'Iran... Pochi giorni dopo che il gruppo yemenita aveva causato danni economici incalcolabili colpendo l'aeroporto Ben Gurion , **il presidente degli Stati Uniti ha colto di sorpresa i suoi alleati; questo ha senza dubbio destabilizzato Gerusalemme nel mezzo dei colloqui sul nucleare.** Ecco altri dettagli dall'articolo: ...Senza coordinarsi con Israele o altri alleati, ha annunciato durante un incontro alla Casa Bianca che gli Houthi avevano accettato di interrompere gli attacchi alle rotte commerciali nel Mar Rosso e ha affermato che gli Stati Uniti avrebbero cessato i loro attacchi contro il gruppo sostenuto dall'Iran... Israele, a quanto pare, è da solo nella lotta contro gli Houthi. [Times of Israel](#)

**Pensi che Trump stia abbandonando il suo “sostegno incondizionato” a Israele o ritieni che i sionisti controllino ancora la politica estera degli Stati Uniti in Medio Oriente?**

**Aisha Jumaan —** Non sono sicura che Trump stia abbandonando il "sostegno incondizionato" a Israele. Credo che ci siano diversi fattori in gioco:

1. Il consigliere per la sicurezza nazionale Waltz ha un rapporto con Netanyahu. È possibile che Trump si sia sentito tradito. L'articolo qui sotto ne parla.
2. La visita di Trump in Medio Oriente. È possibile che il timore che Ansar-Allah possa lanciare missili contro l'Arabia Saudita durante la sua visita sia imbarazzante per tutte le parti coinvolte.
3. Ansar-Allah ha annunciato che a tutte le navi che trasportano petrolio importato dagli Stati Uniti non sarà consentito attraversare il Mar Rosso o il Mar Arabico. Ciò avrebbe avuto un impatto enorme sulle esportazioni di petrolio statunitense verso l'Asia.

È possibile che le portaerei statunitensi nel Mar Rosso siano state prese di mira dall'annuncio di un elenco di sanzioni sul petrolio greggio statunitense e dal divieto di attraversamento del Mar Rosso, di Bab al-Mandab e del Mar Arabico per le navi cargo. Se fosse stato attuato il 17 maggio 2025, questo avrebbe causato danni significativi all'economia statunitense e alla sua posizione internazionale, indebolendo la sua influenza politica e militare, o innescando una guerra globale e senza compromessi in cui altri paesi avrebbero potuto intervenire, data la natura della situazione e le conseguenze

geopolitiche e logistiche. **In questo contesto, gli Stati Uniti non hanno avuto altra scelta che concludere questo accordo per superare il divieto yemenita alle navi che trasportano petrolio greggio statunitense di attraversare il Mar Rosso, il Mar Arabico e di Bab al-Mandab. Ciò è stato esplicitamente annunciato dal Segretario di Stato americano Marco Rubio, presente alla Casa Bianca quando Trump ha annunciato l'accordo. Il Segretario Rubio ha affermato che l'obiettivo e lo scopo di questo accordo è facilitare il passaggio delle navi cargo che trasportano petrolio statunitense nel Mar Rosso...**

4. È anche possibile che la perdita di 2 aerei F-18 e di circa 9 MQ-9 Reaper, oltre ai continui attacchi alle portaerei e all'elevato costo degli attacchi allo Yemen, abbiano convinto i militari che le perdite sono troppo grandi.
5. Steve Witkoff non sembra avere molto a cuore Netanyahu. Trump sembra fidarsi di lui e vuole un accordo con l'Iran. Netanyahu, d'altra parte, vuole sabotarlo.

**Domanda 5—** Persone in tutto il mondo hanno espresso la loro ammirazione per il popolo yemenita per il suo incrollabile coraggio di fronte al male. Gesù disse: "Nessuno ha amore più grande di questo: dare la vita per i propri amici". Nessun gruppo di persone ha incarnato meglio questo ideale del popolo dello Yemen, che ha corso gravi rischi per difendere la giustizia e l'umanità. Cosa hanno di così speciale queste persone, la loro cultura e le loro credenze?

**Aisha Jumaan —** Direi che ci sono molteplici fattori che hanno spinto il popolo yemenita a schierarsi per Gaza, ben consapevole del prezzo che avrebbe pagato. **Lo Yemen è stato oggetto di attacchi aerei quotidiani da parte della coalizione guidata dall'Arabia Saudita, sostenuta dagli Stati Uniti, per 8 anni. Lo Yemen è sotto embargo dal 2015 e gli yemeniti conoscono in prima persona le conseguenze di fame, malattie e collasso economico.** È importante notare che, nonostante il blocco imposto dall'Arabia Saudita sullo Yemen dal 2015, lo Yemen non ha mai tentato di bloccare il Mar Rosso per cercare di revocarlo; lo ha fatto solo per Gaza.

Alcuni dei fattori che hanno spinto gli yemeniti a schierarsi a favore di Gaza sono:

**Gli yemeniti sono fieramente indipendenti e non sopportano la colonizzazione. Lo Yemen è chiamato il cimitero degli invasori** perché ha combattuto tutti coloro che hanno cercato di invaderlo, compresi i turchi. Aden era un protettorato dell'Impero inglese, ma per poter governare, gli inglesi dovettero modificare la demografia della città e importare non arabi. A un certo punto, la popolazione yemenita di Aden era solo il 20%. Lo Yemen è un paese antico, ricco di civiltà che hanno plasmato il popolo yemenita. Nel Corano, c'è un intero capitolo dedicato alla Regina di Saba, alla sua saggezza e alla forza del popolo yemenita. **Gli yemeniti sono gentili e generosi e hanno imparato a difendere ciò che ritengono giusto.** C'è un proverbio che dice: "Se non hai un amico, trovatene uno yemenita". Un altro proverbio dice: "A chi non ha imparato a comportarsi bene col tempo, lo Yemen gli insegnerà a comportarsi bene".

Le norme tribali in Yemen si basano sulla comunità, non sugli individui, il che rende la correzione del torto arrecato a una persona una responsabilità dell'intera comunità. **Una delle norme principali è quella di opporsi alle ingiustizie, e per il popolo dello Yemen, la Palestina è una questione centrale a causa delle ingiustizie che i**

**palestinesi hanno subito** . Gli yemeniti credono che si debba fare qualcosa per contrastare le ingiustizie. Il profeta Maometto, la pace sia su di lui, disse: " **Devi cambiare l'ingiustizia con le azioni** , se non ci riesci, allora con le parole e se non ci riesci, allora desidera il cambiamento nel tuo cuore e questo è il punto più debole della tua fede".

Gli yemeniti sono orgogliosi del loro patrimonio e, pertanto, sono i meno influenzati dalla propaganda occidentale e dalla cultura occidentale attuale. Sono buoni combattenti e per loro l'onore è essenziale. Preferirebbero morire in battaglia e difendere i propri principi piuttosto che vivere nell'umiliazione. Questi valori vengono instillati in loro fin da bambini. Il profeta Maometto disse: "La fede è yemenita e la saggezza è yemenita" . Il popolo yemenita è giusto, è gentile e dal cuore tenero.

**La Dott.ssa Aisha Jumaan è fondatrice e presidente della Yemen Relief and Reconstruction Foundation.** La fondazione mira a sensibilizzare l'opinione pubblica e i responsabili politici statunitensi sulla crisi umanitaria in corso in Yemen, a sostenere gli sforzi di soccorso e ricostruzione e a facilitare campagne per portare la pace nel Paese.

Qui in America lo chiamerebbero comunismo.

Il che è un peccato, poiché questo tipo di pensiero garantirà la resistenza del popolo yemenita per le generazioni a venire.

Avrebbe lo stesso effetto su chiunque la pensasse allo stesso modo.

Gli Stati Uniti hanno perso 3 F-18 e 21 droni Reaper, ovvero 850 milioni di dollari di equipaggiamento, e le loro portaerei si sono rivelate l'armamento del XX secolo. La loro diplomazia delle cannoniere è obsoleta quanto Teddy Roosevelt e il suo pulpito da prepotente.

I missili ipersonici hanno rivelato che i loro vettori sono l'obitorio galleggiante che sono. Se gli Stati Uniti si tirano indietro e scappano dagli Houthis con i missili ipersonici, la loro minaccia di attaccare l'Iran è vana come la testa di Trump. Sembra che Israele stia ancora prendendo di mira Hegseth, i cui account sono stati hackerati e le cui password sono state rivelate, per dipingerlo come un rischio per la sicurezza, in modo da farlo licenziare e sostituirlo con un golem zionista più sottomesso.

almeno Trump può ancora dire al Vaticano cosa fare, visto che per la prima volta hanno scelto un papa americano, proprio come lui aveva ordinato. Ora Trump chiede di nuovo un cessate il fuoco incondizionato in Ucraina, nonostante gli ucraini abbiano dimostrato di essere incapaci di rispettarlo, nemmeno per un giorno. Penso che Trump scoprirà che i russi hanno molte più divisioni del Vaticano e non farà marcia indietro sulle loro richieste.

Le aziende americane stanno tornando silenziosamente in Russia, cercando di ristabilire i rapporti commerciali che hanno distrutto nel tentativo di far crollare economicamente la Russia. Questo è un indicatore sicuro che si sta facendo qualche accordo a porte chiuse e che le esportazioni russe verso gli Stati Uniti stanno raggiungendo livelli mai visti prima del sisma.

Sembra che Israele dovrà farsi coraggio e affrontare la sua paura peggiore... la pace, oppure combattere da solo in una battaglia in cui è nettamente surclassato. Non ci resta che aspettare e vedere come andrà a finire.

Ciò che sta diventando evidente è che Trump è lo sciocco che i suoi oppositori tradiscono di essere, in termini poco lusinghieri.

Nel tentativo di controllare il mondo attraverso l'egemonia americana, i banchieri internazionali hanno reso la popolazione americana talmente stupida che l'elezione di Trump non è stata casuale, ma inevitabile, perché gli USA sono un'idiocrazia.

Non si lascia che un idiota giochi con i fiammiferi, quindi perché ora abbiamo un paese dotato di armi nucleari che è un'idiozia?

Il sistema bancario internazionale ha avuto un successo incredibile nei suoi sforzi in Occidente, ma questo successo potrebbe aver messo un cappio al collo di tutti, compresi loro.

Quindi quando senti la gente esaltare l'America e dire che la sua democrazia è una torta di mele come l'America...beh, quelle persone non americane che hanno affondato i denti nella torta americana, scoprono che la sua democrazia ha un sapore molto simile alla mortadella!

La Cina, con un surplus di miliardi di dollari, NON AIUTA il coraggioso popolo dello Yemen che sta sacrificando la propria vita per combattere contro il genocidio israeliano, per portare la pace dove la Cina ha bisogno di GUADAGNARE. La Cina è interessata SOLO a un posto sicuro dove fare soldi. Non consideriamo questo tipo di persone civili.

La Russia è peggio: non fornisce ad Ansarallah aerei da combattimento per bombardare e uccidere i sionisti genocidi, perché la Russia sta lottando per essere accettata dall'Occidente criminale.

DICHIARIAMO LA VITTORIA E RITIRIAMOCI DAL MEDIO ORIENTE!!!

"Gli Stati Uniti potrebbero benissimo dichiarare unilateralmente che questa fase della guerra del Vietnam è finita, che abbiamo 'vinto' nel senso che le nostre Forze Armate hanno il controllo della maggior parte del campo e nessun potenziale nemico è in grado di stabilire la propria autorità sul Vietnam del Sud".  
Dal discorso del senatore Aiken al Senato, 19 ottobre 1966

Almeno il senatore Aiken ha piantato un seme. Ci sono voluti altri 9 anni perché quel seme germogliasse. Ricordiamo tutti com'era quella Vittoria nell'aprile del 1975:

È il mondo multipolare; tutti saranno presi di mira, tranne i responsabili. È ora di prestare la valigia di Putin. Qualcuno scommette se funziona o no? È un culto della morte vecchio di 30.000 anni, persone orribili e assurde, che possono essere governate a qualsiasi costo. Gli egiziani, con cadaveri conservati che camminano, sono sotto attacco. David Icke ha perfettamente ragione, questo è un manicomio, governato dalla famiglia Rothschild. Favorevole: la Russia, che uccide europei per i peccati "statunitensi".

Dio darà la terra dal Nilo all'Eufrate (Genesi 12 e 15) a un futuro Abramo risorto e alla Sua discendenza unica. Paolo in Galati 3 afferma che questa discendenza è unica, e che è Gesù Cristo.

Gesù Cristo disse ai farisei che, se fossero stati discendenti di Abramo, avrebbero compiuto le opere fedeli di Abramo, cosa che non stavano facendo rifiutandolo. Disse: "Abramo vide il mio giorno e se ne rallegrò". I farisei non erano contenti di vedere il giorno di Gesù. Questo è tutto in Giovanni 8:39 e 56.

Quei fedeli gentili ed ebrei che sono battezzati in Cristo "sono discendenza di Abramo ed eredi secondo le promesse" (Galati 3:26-29). Saranno risuscitati per ereditare questa terra e la vita eterna alla seconda venuta di Gesù Cristo.

Abramo non cercò di conquistare la terra promessa con la forza delle armi, come cercano di fare i farisei di oggi. In questo senso, non sono come Abtaham. Abramo "morì nella fede, senza aver ricevuto le promesse: Dio aveva in vista per noi qualcosa di meglio, affinché essi (tutti i profeti fedeli) non giungessero alla perfezione senza di noi" (Ebrei 11:39-40).

The angel Gabriel told Mary that God would give her son, Jesus Christ, "the throne of his father David, and that he would reign over the house of Jacob forever." Luke 1:32. This is yet to happen. The Lord's prayer prays "Thy kingdom come, thy will be done on earth".

This is the gospel (God news of the kingdom of God) as taught by Jesus Christ. Pete Hegseth has got it wrong.

Satan told Abraham to sacrifice Isaac. When just about ready for the life ending blow an angel tells Abraham to stop.

What authority did this angel have undoing the Almighty's work —unless it was not God —but Satan.

Satan —liar and murderer from the beginning and——contrarily : " I am God- I change Not!"

If God issued the first command to kill —he is talking out of both sides of His mouth but with Satan—

Satan was simply following course and jealous of humans.....

It is all about images for poor Mike. Reality is that Yemen is being relentlessly turned into Stone age. Not a single USA ship or plane was destroyed or damaged. Unfortunately no Jew jets have been knocked out. Hopefully an intrepid Iranian cargo unit will get a few advanced SAM'S into Yemen and eventually shoot down a Jew jet. Ideally one or two of those JJ pilots will be taken alive so that the Zionist Entity will be forced to negotiate. Please let it happen.

PS. Who would-a-thunk it that as an earnest young man who always supported the USA I would be supporting a band of desert tribesmen that I still wouldn't want to move to my town, but here it is.

I am so proud of the Yemenis. All Yemenis.

In the 1960's, Egypt's president Nasser sent a 50,000 strong army to Yemen. They were forced to retreat after a few years. Snipers in the mountains would kill a few Egyptians and disappear. If a force was sent up the hill, they would also be killed. There were no helicopters or drones at the time.

I believe British soldiers were advising the Yemenis at that time.

China with billions of dollar surplus DOES NOT HELP the brave people of Yemen...

Normally I wouldn't respond to such a low-level and obvious partisan outburst, but we can legitimately ask who exactly are the 'brave people of Yemen'? It is important to understand that the Houthi movement against the established Yemeni government is essentially an internecine civil struggle that has been going on for over twenty years, now involving third parties with their own political-religious agendas. And it is clear that any third party involvement (Saudi, US, Iran, et al.) is unlikely to end the hostilities, as this latest US debacle has now demonstrated. In any case, results will not be happy for 'outsiders' who get involved.

China's position in the region, like all their foreign policy, is consistent. To avoid military conflict, but support diplomatic solutions. China has diplomatic relations with the Salem Saleh bin Braik government, but not the Houthi faction. However the US has accused China (without offering any hard evidence) of militarily supporting the Houthis. It is not clear why China would do that, and most rational observers think that this is simply one of the usual anti-China canards now expected from America, these days.

I think the main takeaway for China (and Taiwan) is that the idea the US can effectively project sea-based military power against more than a scantily armed country is an untenable supposition. That is, if the Houthi's can essentially chase away the US Navy, what expectation can Taiwan separatist factions have that the US is capable of deterring a serious mainland move on the island?

This was probably the most humiliating defeat the USA has suffered in its history. And that is saying something, since the USA has no shortage of humiliating defeats under its belt. Now that American weakness has been exposed for the entire world to see, it would be the perfect time for America's slave colonies (Europe, Japan, fake korea, etc.) to break their chains and free themselves from under the boot of the mongrel American empire.

I would say that there are multiple factors for why the Yemeni people decided to stand up for Gaza, knowing full well the price they will pay.

The decision was made by the Houthi leadership and the Iranian regime, the self-appointed leader of the resistance. Maybe Aisha Jumaan will tell us the process by which the Yemeni people were queried. As a general rule, we hear this bullshit and bravado from those professing it from a safe distance, like Dr Alwazir.

He is a prominent political figure in Yemen. He lives outside Yemen now.

Look, don't get me wrong, I'm not taking anything away from the resilient Yemenis. Or even the Houthi — tough hombres in Trump's nomenclature. But there is no honor in sitting in Teheran or the West shouting for the Yemenis or Palestinians in Gaza to take one for the team.

This is a common misapprehension.

If you sincerely believe that by martyring oneself you are guaranteed an eternity in paradise with a bunch of virgins, you are not brave or courageous.

If you value death more than life, you do not have ‘balls of steel’.

Courage is being scared but doing what needs to be done despite the fear.

Here's what you will not read in the media:

Iran persuaded the Houthis to agree to a ceasefire with the U.S., which involved the Houthis halting attacks on U.S. shipping in the Red Sea. This was mediated by Oman and seen as **a strategic move by Tehran to build momentum for ongoing nuclear talks with the Trump administration**. Two Iranian officials indicated that Tehran encouraged the Houthis to stop targeting U.S. assets, aligning with Iran's interest in de-escalating tensions to advance nuclear negotiations.

However, the Houthis DID maintain their commitment to continue attacks on Israel, indicating they call their own shots. .... The ceasefire deal, announced on May 6, 2025, was described as a U.S.-Houthi agreement facilitated by Oman, with Iran's role being a behind-the-scenes push to align Houthi actions with its broader diplomatic goal...

This is very good news for the ongoing nuclear talks which appear to be on track and could avoid a war

Bottom Line— Israel knows what's going on and now MUST do something to scuttle the talks. (if it wants to drag Trump into a war.)

OMG!

This is almost too ridiculous to report....

We all knew that Bibi had to act fast, but whoa, this is impressive....

Let's set the stage first:

1– Trump strikes a deal with the Houthis that allows the Houthis to continue clobbering Israeli shipping and Airports.

2– Bibi is pissed and reads Trump the riot act. Trump breaks off communications with Bibi

3– Israeli media goes nutso saying 'Trump stabbed them in the back' for not "taking a bullet for Greater Israel". Boo hoo.

4– Then, the next bloody day, Fox News uncovers secret nuclear sites in Iran!!!  
Wow! What a coincidence. Never saw that coming!

This is from Friday's ynet news:

Report: Satellite images reveal suspected secret Iranian nuclear weapons facility  
Fox News reveals suspected nuclear site near known Iranian facilities, which Tehran claims is a chemical plant; US-Iran nuclear talks face delays amid disputes over uranium enrichment <https://www.ynetnews.com/article/sjigco9gee>

Let's face it: Bibi has a gun to his head and has to use every trick in the book to keep Trump on board with an attack on Iran. But it looks like Trump's trying to resist. Let's hope he stands tough!

Oil from Iran only makes up 15% of China's imports.

Nobody said the Chinese are doing it entirely out of the goodness of their hearts only. To do so would be naive. She supports Iran because it is also in her interest to do so. By supporting Iran, she secures her Western flank. In the same way Russia supports Iran to secure its southern flank.

I am convinced more than ever that the USA is lying about minimal effects of the Houthi attacks on the American aircraft carriers.

There is no way that an aircraft carrier can make such a sudden maneuver as to throw an aircraft off a ship.

Aircraft carriers are big lumbering floating cities which are easy targets for small but effective munitions, drones and missiles and the like.

Yemen and Iran have accurate missile and drone technologies and good targeting information which makes any "iron dome" (lol) defense system next to useless.

Observe the missiles that have been able to penetrate israel's (supposedly impenetrable) "iron dome" defense system.

The USA is saving face by agreeing to leave the Houthis alone.

Genocide jew boy criminal netanyahu (nee mileikowsky) cannot be too happy, sulking away from the White House with his tail between his legs, being rebuffed by Trump in his effort to get the USA to attack Iran.

A coverup, not unlike the deliberate israeli attack on the USS Liberty (AGTR-5) is in the works. This is especially true if there was any loss of American life on the aircraft carrier or task group.

That type of intellectual dishonesty in favor of a narrative is the main problem with the MSM and here you are bringing it to Unz.

2/3 of the F-18s fell off carriers in accidents. Did you forget to mention that? Of course not. As with CNN/MSNBC you prefer exaggeration and dishonesty to honest analysis.

As for drones it is expected that some will be shot down in combat. That is half the point.

You send them into a high risk area and don't lose any pilots. They are developed for this type of mission.

The Houthis didn't triumph over Trump. It was in their mutual interest to strike a deal. It doesn't make sense for both sides to be at war over Israel.

God bless the Houthis, they are the only country standing up to the demons in the Zionist Israeli controlled ZUS and the demons in the state of Israhell. The Houthis are the only country with the morals and humanity to actually put words into action and defend the defenseless people of Palestine, again God bless the people of Yemen.

There has to be a special place in hell for Zionist Israel and the Zionist controlled ZUS, for the genocide in Gaza and Palestine.

The simple truth ..... every single word.

I hope I live long enough to see Israel turned into a smoking hole. That would be the only payback equivalent to the crimes these dregs of humanity have foisted on others.

In former times those dagger handles were made of Rhino horn but that is almost unobtainable today.

Some 35 years ago I spent six months in Saudi Arabia, mostly in Dammam.

In those days there were lots of Yemenis running street food kiosks, driving taxis and our office accountant was a Yemeni from Aden.

This was the time the Iranian revolution was on and one day I was reading Times magazine or Newsweek, when my Saudi boss entered. He snatched the magazine from my hands and spit on the cover which had Khomeini's face on it.

The Yemeni accountant pointed to the date palms visible outside and declared we need only these and camels to survive.

Today this is not true for the Saudis, oil wealth has made them soft, but the Yemenis have no oil and survive on remittances and are still tough, tough as the Afghans.

well i can't call your response intellectual dishonesty, because there's nothing intellectual about it, so let's just call it dishonest stupidity. did i say they they were shot down? no, i said they were lost, due to the mighty hegemon's "gunboat diplomacy". who know what stupidity on their part, caused the loss of those outdated, overpriced fighters. maybe it's cheaper to just push them off the deck into the red sea, rather than mothballing them in the desert. all i know is they totally failed in their mission, so once again, they get their ass kicked, declare victory and sail off with their tails between their legs.

As for drones it is expected that some will be shot down in combat. That is half the point.

You send them into a high risk area and don't lose any pilots. They are developed for this type of mission.

so when has the former hegemon lost 21 reaper drones before?

The Houthis didn't triumph over Trump. It was in their mutual interest to strike a deal. It doesn't make sense for both sides to be at war over Israel.

again getting their ass kicked and declaring victory.

The Houthis don't take orders from Tehran. They reached out for help when the Saudis and Emirates began being supplied by the U.S. in their goal destroy them with air bombing. They also had to fight and Al Qaeda offshoot on the ground. The only group that has been friendly with Iran is Hezbollah.... Hamas was formed by Muslim Brotherhood and used to be anti Shia. Yes I am aware that Iran has the largest population of Jews in the region and have been there since the days of Cyrus. But I wasn't sure about Yemen. I just recall that "astonishment" when some of the Yemeni ones moved there. Of course they were discriminated against by the Euro (Ashkenazi) Jews but as some pointed out – they are closer in practice and bloodline to the biblical accounts.

Very interesting to note that some remained in Yemen. Just interesting because Yemen is so poor.

Iran can be laid waste but only by using nuclear bombs. The fallout in the rest of the world will be devastating for the USA.

Iran knows this, the US knows this.

Israel knows using it's Sampson option will lead to it's extinction as it will bring Iran's full wrath and others (Muslim Nations) will join it to destroy it.

Yeah it's comical – but deadly serious. They don't understand that blowing up a lot of things and killing unarmed people doesn't win. You win when you accomplish your objectives. The CLAIMED objective was to allow open shipping in the area by stopping the Houthis from targeting ANY shipping. Now they changed the goalposts after seeing that was a failure they changed the goal to "American ships". They think the rest of the world is stupid. I will give home one thing – Trump was quicker to withdraw than other US leaders.

But yeah it's all about saving face. Recall they omitted the fact the U.S. agreed to remove missiles from Turkey in order to end the Cuban missile crisis. The Soviets didn't even care as they agreed to keep that secret – lol

i didn't really know anything about yemen, until their war with the saudis and i was very impressed by their underdog struggle and eventual victory, when msb decided wisely to quit their assault on these long suffering people.

when they declared war on israel, i kind of chuckled, thinking that was an absurd concept but wished them well. looking back, i now see just how important this was and that it was absolutely the right thing to do, rather than just lobbing missiles, as everyone seems to do these days as a form of foreign policy. if you're going commit acts of war, declare war. if iran is attacked by israel, they should declare war and then hit them with everything they have, enough tit for tat.

i think the houthis valiant and steadfast fast response, has finally gotten through to trump, as to the huge mistake he would be making in attacking iran. if they can't handle the houthis what chance would they have against iran?

The Perfect War: Technowar in Vietnam

This book mentions one curious fact. There was a tacit agreement between North Vietnam and the United States NOT to bomb or even mortar shell each other air strips. Because even tiniest pebble and minuscule pit could damage beyond repair B-52s & F-4s when landing or taking off. Before every bombing mission a crew of USAF servicemen in space suits carefully inspected each air strip, picked up pebbles and small stones and fixed small pits and cracks thereon.

Questions:

1. By whom the above-mentioned tacit agreement was arrived at >50 years ago ?  
Inquiring minds want to know !
2. Why such tacit agreement was not arrived at during the recent bombing of Yemen ?  
Aircraft carrier decks and modern fighters/bombers are even more fragile compared to concrete air strips, B-52s and F-4s of '60s vintage

This is intellectual dishonesty:

*the u.s. has lost 3 f-18's and 21 reaper drones, that's 850 million dollars of equipment and their aircraft carriers have been revealed as the 20th century weaponry, they are. their gun boat diplomacy is as outdated as teddy roosevelt and his bully pulpit.*

*hypersonic missiles have revealed their carriers as the floating mortuary that they are*

You were implying that the loss of F-18s were the result of attacks by Houthis and that such attacks have shown carriers to be outdated. No carriers were sunk by hypersonic missiles.

They dropped two F-18s in the ocean. That is human error. So 2/3 planes lost were f-ck ups and that was the entire campaign. In WW2 it was a daily occurrence to lose a plane or a ship to the enemy.

You knew they were dropped in the ocean and still made your statement. That type of blatant intellectual dishonesty happens all the time in the MSM and is a key reason why so many of us value this website. But here you are doing the same exact thing and getting upset over being called on it.

*all i know is they totally failed in their mission, so once again*

How would it be a failed mission with the Houthis immediately made a deal after Trump attacked them?

The Houthis made an agreement with the US after they were repeatedly attacked.

Gunboat diplomacy worked.

Maybe there could have been other options but it worked.

This in fact discredits both right and left that tell us violence isn't the answer.

Well violence in this case was an answer and this type of raid goes back hundreds of years to when European powers had to deal with Muslim sea raiders by force. Muslims seem to know the language of violence. Sorry but it is pretty clear pattern at this point. They don't seem to respect dialog.

Biden did nothing and the Houthis kept attacking.

Trump repeatedly attacked them and they agreed to negotiate in response.

The gunboat diplomacy worked.

Pretty obvious cause and effect to anyone with common sense.

*21 reaper drones shot down, is that just due to u.s. incompetence? there is no way you can paint this as a victory, stop your senseless nafo trolling.*

What is the measure of a success? Absolutely nothing lost? The US must lose absolutely nothing and gain everything? Do you apply that same standard to Russia?

The Houthis have Russian weapons and even a 50 cal from WW2 can take down a jet fighter. Flying into enemy territory can result in lost aircraft and especially drones. A big duh but doesn't change the fact that the Houthis made a deal with Trump after multiple attacks.

The Houthis lost defense systems, ammunition storage sites and key leaders. But they somehow won because the US lost some drones?

It's a mutual agreement after some fighting. Both sides are in agreement that fighting each other isn't in their interest. You're like a leftist that wants to bash the US whenever possible and holds them to their completely separate and unrealistic standards.

Under pressure the US had to take evasive action with an aircraft carrier due to a Houthi attack – and lost a plane into the sea. The world laughed. The Houthis hit an airport in Israel – the US closest ally.

The stated goal was to stop the Houthis from intervening in the Red Sea. That was NOT the agreement. When you state an objective and you don't accomplish it – you are a failure. The Houthis goal is to continue their operations until the siege on Gaza stops. When there was a ceasefire in Gaza – the Houthis stopped. They are not stopping because of their agreement with Trump. They only agreed to not attack US ships – as long as the US stops attacking them.

You are absolutely right.

And the reaper drones weren't shot by accident. Anyone can check out the Deep Dive Defense channel on YT how that was achieved if they search.

In addition, Iran claims now to have a missile called Qassim Basir that is designed to sink aircraft carriers with optical jam proof optical guidance system and claimed to have a CEP as low as 1m.

Problem is the US and Israel will have no choice but to use nukes, as well as destroy Iranian civilians and infrastructure on a massive scale to win the war.

Unfortunately neither China nor Russia will stop them.

Unless Iran can deliver nukes or hydrogen bombs or EMPs in DC and NYC. The problem is Putin and Xi will not let Iran have nukes. So they have condemned Iran to failure. And it seems that is their ultimate objective.

Correct. I loosely used the term "present day Pharisees" to describe all those who persist in preserving the worship centred around the Mosaic covenant, a covenant that God replaced with a New Covenant (Jeremiah 31:31-33) because the Israelites had broken the Mosaic Covenant, which God has caused to "vanish away" (Hebrews 8). This includes all ethnic and non-religious Zionists.

Trump, a genocidal Jewish mafia member and his illiterate zionist negotiation team, Witkoff, have said ignorant statements to disarm Iran, Trump's style. This is typical of Jewish mafia tribe line of work. Witkoff said the following:

“We’ve stated our position. The Iranians cannot have a bomb. They have stated back that they don’t want one,” Witkoff told Breitbart News. “So we’re going to, for the purposes of this discussion, take them at their word that that’s actually how they feel. If that’s how they feel, then their enrichment facilities have to be dismantled. They cannot have centrifuges. They have to downblend all of their fuel that they have there and send it to a faraway place—and they have to convert to a civil program if they want to run a civil program. Now, they have a civil reactor actually in the state of Iran—it’s called Bushehr. They have no enrichment capability at this place and if we take them at their word why not just turn all the rest of their facilities just like Bushehr? Bushehr they have no ability to enrich, they have no ability to have centrifuges there, they can only use that facility for civilian purposes—making of electricity and things of that sort of civilian purposes—and if that is what they choose to do, if they believe in that program, they ought to expand it if they want to. An enrichment program can never exist in the state of Iran ever again.”

That’s our red line. No enrichment. That means dismantlement, it means no weaponization, and

Iranians have made fun of Witkoff’s stupid statements, telling him instead, to study the NPT, and to go after Israel’s ILLEGAL nuclear weapons facilities. Witkoff is protecting his Jewish Mafia TRIBE using an ignorant Mafia member, trump, to

advance the interest of his own tribe. All these nonsense are against International law. Witkoff should spend times to study the NPT before making more threats. Has witkoff read the NPT? We know his boss trump DOES NOT READ even one page of report, according to his own words. He only watches porn movie, to find more kind of Stormy Daniels to spend time with. He does not have time to read and that's why he is making nonsense statements to please the genocidal Netanyahu. He is stain on American people. The Iranians said the following:

Witkoff is talking nonsense.

He doesn't understand the difference between a nuclear reactor (like Bushehr) that uses fuel and enrichment programs that produce fuel. Without enriched uranium, Bushehr can't function.

Iran won't surrender its sovereignty under any circumstances.

When these Jewish Mafia are making threats against Iran, people around the world are telling these genocidal assassin that YOU HAVE BLOOD ON YOUR HAND, You are supporting and funding a genocidal occupied regime. Shame on you, Shame on you.

Iranian people are saying Shame on you witkoff, shame on you trump, Death to genocidal states.

i.c.b.m.s? what makes you think the russians wouldn't shoot them down with s-550's? what are you going to do blanket the country with nukes? that could start ww3, one or two nukes isn't going to stop the iranians from blanketing tiny little israel with hypersonics in a full response from their huge and well defended country. iran doesn't need nukes to deal with the likes of you. that's why trump has to beg for negotiations, while painting it, as terrifying them and bending them to his will.

Don't really care what Trump, or you, believes. Trump is almost as brain damaged at Butthead Biden. He is also a full co-belligerent with Israel in genocide and uncounted crimes against humanity.

We really need someone with integrity in the international community to bring charges against Trump in a legal venue and issue arrest warrants for Trump and Biden. This asshole absolutely has to stand trial for his crimes.

Hi Notsofast,

I thought that your comments have been very good on this topic.

And I do agree that it appears that Hegseth is being removed (indeed, the White House has leaked that they are looking for a replacement –

<https://legalunitedstates.com/the-secretary-of-defense-shakeup/>).

However, given how strongly he supports Israel, I thought that you may have been mistaken (regarding the Zionists desire to find a more subservient person for the role of Secretary of Defense). ... But... I found this article by Chuck Baldwin, which supports what you said (and it makes sense for me):

“I am already on record as saying that Hegseth should not only be fired for this flagrant violation of U.S. law but he should be criminally prosecuted. But if you think that Hegseth is being fired for these leaks, you need to think again.

During an interview with Judge Andrew Napolitano, Max Blumenthal, editor of the Grey Zone, reported that it was Pete Hegseth, of all people, who was the one who actually talked Donald Trump out of following Israel’s madman Prime Minister Benjamin Netanyahu’s plan to attack Iran last week.

As soon as I heard that report, I told my son-in-law that Hegseth would soon be relieved of his position as Defense Secretary. Sure enough, this seems to be the case.

But, again, if Hegseth is indeed sacked, it will NOT be for the leaks. No one in a senior position of government is ever sacked for violations such as these. Democrat or Republican, they are above the law. But what they are not above is the wrath of the Israel lobby.”

USA foreign policy has made America angry. Electing a MAGA president was about the USA devoting its attentions and expending its resources to MAGA? Chasing deals all over the world, selling weapons to facilitate foreign wars, putting war ships at risk in the Red Sea and the South China Seas, Tariff-pirating foreign suppliers, and facilitating export instead of internal consumption do not seem likely to advance the MAGA promise?

America is for Americans. Hopefully the leadership of the USA will figure that out? Maybe Americans should amend the constitution of the USA to block the use of American resources in foreign places?

IMO, deals in the middle east, UK, EU, Yemen, Israel, Russia, Africa, South America, Ukraine, Greenland, Panama Canal or China etc. are not MAGA deals?

You disappointed me again.

Iran must at the appropriate time suspend or withdraw its membership in NPT. Some Western provocation can be the trigger. Citing thY despite decades of cooperation its NPT membership has brought nothing but misery

At the same time declare that it has no intention to develop nukes but can simply no longer be part of a treaty that has only harmed Iran.

And also patiently develop many nukes and the ICBMs. Like Israel deny possession of nukes.

Iran is waiting for a provocation. For example the snapback or some kind of military action by US or Israel. If those provocations don't happen Iran will remain in NPT but keep doing what it needs to do to have WMDs and the means to deliver them to DC as a deterrent to prevent US attacks.

Russia has declared officially it will not help Iran if attacked by US so stop trying to fool people, Mossad troll.

If Trump and Israel are bluffing there won't be a problem.

You are obviously a Putinist Chabd troll who wants Iran not to have nukes. But no sane Iranian will listen to the slow, not so fart, monkey farts from you.

Iran is the successor to the Persian Empire. The Iranians are very sophisticated. This was impressively evident early in the revolutionary regime as it cut a deal with Reagan/Bush to not release the hostages until the moment after Carter left office.

Frightened isn't a word I would use for the mindset of sovereigns, yet it's close enough for government work when it comes to what followed — the US supplying Iraq in its war against Iran. The Iranian regime survived. Though a million of its young men did not. Importantly for our purposes, it was no big whoop for the successor to Rome, the US of A.

Like most observers, you focus solely on the sticks that Emperor Trump might deploy, and not the carrots he was publicly referenced. Even so, Trump is too smart to use military power when he can consign Iran to an economic basket case it can ill afford to be at this moment.

Instead, he is offering Iran a generational opportunity for a rapprochement. Believe me, if Iran lets this moment pass it will consign itself to a long flop and twitch as China, Russia and India, push it around.

A genuine and lasting rapprochement with the US is going to be extremely challenging for Iran.

The US will only keep its end of the bargain only if Iran keeps its leverage. But the US is asking that Iran give up its leverage before any deal is struck

From what I hear Iran seems desperate enough to give up its leverage.

Iran cannot cut off its ties with Russia and China, only to be abandoned by the US and left out in the cold.

I think the rulers in Iran have lost the support of people and will enter into a humiliating deal with the US, and will be cheated again.

Israel will anyhow not let Iran off the hook and it controls all the levers of power in the US.

How can Trump alone turn around the US when Iranophobia has been institutionalised by Americans, Christians and Jewboth?

*i.c.b.m.s? what makes you think the russians wouldn't shoot them down with s-550's?*

The S-550 hasn't been fielded.

<https://www.twz.com/43675/no-russias-s-550-missile-defense-system-hasnt-been-fielded>

The Ukrainians have taken out S-400s with HIMARS and drones. They're not great at tracking multiple targets.

The Ukraine war has proven the theory that any advanced anti-missile system can be overwhelmed.

They also have vulnerabilities to cheap gliding drones that have a small radar signature.

These anti air systems were built for a different type of war.

See for yourself:

You can use cheap drones to get them to blow their load.

The previous poster is incorrect that the US would have to use nukes to invade Iran.

Iran would have to employ a Vietnam type strategy. Trying to shoot down every Tomahawk missile and drone wouldn't work. They would run out of missiles.

thanks for bringing this up, i was thinking about this and those pl-15's look pretty bad ass, as do the chinese j-10 fighters that took down at least one and up to three rafale fighters (as well as a mig-29) over the horizon at up to 145km, while the french fighter's missiles had a range of no more than 80km. hope macron is paying attention and i'll bet india wishes they had purchased su-57's or even su-35's instead, well that's what modi gets for being a duplicitous bastard, playing both sides against the middle. you can bet xi had cheshire cat grin, at the victory day celebration with putin.

this almost as impressive as the russian su-35 take down of a ukrainian mig-29 at 217km, with a r-37m (that has a range 400km at mach 6). now we know why trump has turned into such a peacenik. the days of the red baron diving in out of the sun and shooting down sopwith camels with his machinegun, are long gone, these days in air to air combat you don't even see your opponent. all of zato is completely outclassed and surpassed by both china and russia. it is rumored that the russians have licensed the su-35 for production in iran, if that's true, you can add iran to that list.

*While losing an aircraft during a deployment is pretty much normal, losing 3 is almost unheard of.*

One to friendly fire and two went blub blub.

There definitely needs to be an investigation but with over 1000 sorties it really isn't out of the ordinary for losses.

I'm not a fan of US policy in Israel but I don't see why some posters here want a victory parade over a couple lost hornets.

It's a dated plane and we will undoubtedly end up with a surplus. F-18s were offered to Ukraine and they didn't want them. They already have more F-16s than pilots.

I get the frustration with Israel but I think we have a few posters that want their David and Goliath moment more than they want to honestly assess the situation.

Trump made the right move here. The Houthis are really Israel's problem.

@Passing by.

@Passing By, you're not seeing them clearly in that regard (their supposed lack of self-awareness)

What you wrote seems to be true on the surface, but if you'd try to discard your mind's automatic filtering system & just look at what's right there as it is, you'd realize they just seem to lack self-awareness.

Sadly, by all reality based indications, jews are generally far more aware of the truth than non-jews. They have to be, to be able to lie w/such malicious calculated cunning.

Remember the verse from their talmud?...

"If the goyim knew what is written in the talmud, they would kill us openly"

Then you say they're not of this world (or rather that "they cant be").

Is that so? Is this world not a world of tooth & claw where virtually everything is a parasite that must take life to perpetuate life? Is this not the planet where there exist many other recognized "behavior altering parasites" that are able to hijack their host's minds & deactivate their basic will to survive?

What the jews do is very similar to those parasites that mimic whatever species of ant where they're able to get past the host ant colony's defenses to infiltrate, get close to the colony's ruler (ie the queen), kill it, & take over from within.

The rest of the ant colony doesnt realize they've lost their real leader & they're now enslaved serving their worst enemy.

Put the stupid jew written bible down man. It really warps your ability to think about this stuff.

Of course, you wont. Cuz "anything/one trying to free you from that jew created mind virus must themselves be a 'jew' & a tool of the devil!" (according to the jews who wrote that turd dipped in chocolate known as the bible).

(According to christians, anyone who's against worshiping jews is a....a jew. But if you're in favor of worshiping jews, then you're not a jew. To anyone capable of honest thought about this stuff, yes, christianity is batshit insane. And islam is the same thing for other races).

The situation with Iran is 80% about Saudi Arabia, Kuwait, the UAE and Bahrain, they're scared shitless of Iran, the Houthis and the 45 Iraqi paramilitary groups.

They are scared of the **Shia Crescent**, hence the US bases.

Why do you think Trump killed Suleimani?. Suleimani was such a monster that when he saw that the Sunni rebels were gonna bring down Assad he went and brought criminal Putin to help him kill a million Sunni Syrians!

The SOB brought an atheist to help him kill other Muslims!

Khameney (and Suleimani), Nasrallah, Putin and Assad killed a million Sunnis in Syria alone.

That's how far the Iranian regime would go for their stupid **Shia Crescent project**.

Iran has killed more Sunnis in 20 years than Israel and the US did in a hundred!

Given that the Arab Sunnis are such enthusiastic sackers of Anglo Jewish cawks, I am surprised any have been left alive by the Shias.

We are very grateful to the Arab Sunnis for installing a Mossad/ISIS agent to head Syria.

Thanks to Sunnis we destroyed 90 percent of the Syrian Army and have gained both land as well as a Druze buffer zone in case Jew Lany is unable to keep a Mossad leash on his Sunni Army of Dogs.

And thank you for massacring Alawites, Israel's sworn enemies, and sex slaving their young daughters.

It has been a pleasure working with you cawk sackers

Nobody said that things are gonna stand or stay still in that part of the world during your short stay in the planet, Yababa...

It's a matter of time.

Empires have come and empires have left. Even Jews left and now have come back, bleeding, begging, traumatized by Hitler only to betray their hosts; the Palestinians.

The Palestinians never left. All those empires left, but the native PALESTINIANS stayed.

Two things made things worse: one, the birth of Islam, and two the oil importance, oil that was discovered in the gulf, giving the desert, camel riding beduins area importance to the US and the West.

Islam will not let go of Palestine, to them it's the crown of Jihad because of Al Aqsa. I really hope Jews destroy Al Aqsa because it will accelerate the rebirth of the Caliphate and that's when your ilk will swim butterfly style back to Poland in a hurry.

Two billion people upset is two billion.

It will be a pleasure fucking you in the ass, cawk sackers

Economic attrition? The houthis were losing valuable infrastructure that supports millions, that is much more catastrophic than losing easily replaceable machinery.

The spin on this deal is unhinged. The houthis instigated this war with attacks on ships, and now they relent to attacking based around a truce. How did they win? What concessions did they get from the US after they repeatedly got themselves blown up?

Pakistanis also probably have the second best fighter pilots in the world, after the Russians. The few that volunteered to fight in the wars against Israel were the terror of the skies for the IDF. The Americans, not too good, despite their movies. Loads of American pilot POWS in the Vietnam and first Gulf War against Iraq. Russian pilots were very good in the Korean war.

The NeoCaliphate is a Jewish (Mossad/CIA) invention. There, they took power in Syria and what will they do? It would seem that out there in Columbia you are not well informed about who the Caliphate and ISIS are. The Caliphs that were running ISIS were apparently Jews, Israeli agents posing as Muslim fanatics.

As an Evangelical Boomer, I/we endorse this as the Truth, and find it so directly stated as to be quite refreshing. We exist to serve, as we're aught but beasts and frankly my sons, daughters, and son-daughter, cannot wait to bayonet charge whatever brown or yellow or mocha or white skinned enemy we are directed at.

We must kill them over there before they get over here!

exactly, up to 300 km @ mach 5 on the homegrown variety, second only to the russians 400 km @mach 6. the west has nothing near either one. their jets are useless against these kinds of range and speed, it's not at all a fair fight, to say nothing of the air defense systems both countries wield.

i think these proxy wars are being used to demonstrate this fact to the world. we can't really call ukraine a proxy war as the russians are directly involved but it is definitely a proxy war on the part of nato and they have been and are continuing to be humiliated and their weapon systems proven to be outdated, overpriced junk. anyone that wants real defensive systems are going to go to the far less expensive, far superior weapons systems offered by both russia and china to their trusted allies.

imagine being modi, finding out his 34 now 31 rafales are totally useless against the pakistanis? ouch, that's gotta hurt, but it's exactly what that duplicitous snake deserves for playing all sides and putting business deals ahead superior technology. i'll bet he's glad he bought those s-400's and wishes he bought su-57's. china has sent him a clear message with this flexing of their muscles and these aren't beer muscles.

this is all part of the larger economic war, that has been raging since trump 45 first took office and started this stupid economic war with the chinese, while trying to push the russians around. this is a gut punch to to the u.s. and european weapons industry. this will also attract non aligned countries and former colonies wishing to expel their parasitic former overlords, as we see all over africa now.

somehow through all of this the e.u. still claims to want war with the russians. let's see if they actually dare field troops in ukraine, granted they are stupid but are they really that stupid?

sez the butthurt zato troll. the houthis were doing the iranians a favor during their negotiations, by allowing the embarrassed former world hegemon to save face, giving him an off ramp, while they continue to lob missiles at the zionist occupiers.

the houthis have been bombed for decades by the saudis, backed by the u.s., who finally gave up when they realized the futility of their efforts. when the houthis proved the worthless nature of their patriot systems, mbs saw the light, stopped his attacks and made a deal with the iranians and chinese, if you can't beat them join them.

the u.s. can print as much monopoly money as they want, destroying their own currency, but they can't produce as many weapons as they want and mother hubbard's cupboards are growing bare, that's attrition, both economic and resource.

No, isis and al Qaeda aren't Jew or Americans creations.

They are the beginning of the caliphate.

And your bosses in Iran won't be part of it because they killed too many Sunnis.

As a matter of the Iranian regime is in cohorts with Israel, it's them who are preventing the caliphate by attacking all Sunni resistance.

But ..

Their time is up.

*the houthis have been bombed for decades by the saudis, backed by the u.s., who finally gave up when they realized the futility of their efforts. when the houthis proved the worthless nature of their patriot systems*

What are you talking about exactly?

Patriot systems? Where?

Are you saying the US gave up on fighting the Houthis even though they hit over 1000 targets? Do you just living in your imagination?

Trump order strikes against multiple targets and an agreement was reached soon afterwards. The Houthis didn't think that sinking US ships was worth being attacked. The US (Trump) decided to make a deal instead of continuing to attack for the sake Israel. Good for him. A rare moment of America First politics.

The case and effect are quite clear.

The crazy thing is there was no proof given that Pakistan was actually involved in the terror attack itself.... But yeah we shall see what will happen ...

There was some coverage that one of the S400's India had – got destroyed. But I didn't see confirmation. But Chinese also have the system so it's possible Pakistan learned from them

Yeah and those NATO countries are nuts. But it seems they can't help themselves and always "need" to have war every century

*hanks for that information....from 2021, douchebag. it's as outdated as your air defense systems. try to keep up with the times, although i know why you don't want to, nothing but bad news for you in the present.*

I admire your passion for Russian military production but the article is still accurate.

*The State Armament Program is also expected to accomplish by 2027 the creation of the S-550, an anti-missile and anti-space system with improved detection capabilities and a greater range compared to the S-400 and S-500. The Aerospace Forces are to receive the S-550 by 2025.*

*meanwhile they shredded all your combined zato and israeli systems, to the point that israel had to pawn off their useless patriot systems on the stupid the ukrnazis, so u.s. tax payers could pay for them twice (suckers).*

You are one strange boomer that resents reality just as much as punctuation.

I don't support funding Israel.

Some of us don't support Israel or idealizing Russia's military. Russia recently fielded a yellow school bus in combat and here you are getting angry at me for posting an article from 2021. Calling someone a douchebag over a source from a few years ago means you have lost your nerve and need a break from the internet. Maybe you should take up model trains or something if you get this angry over a single article.

i called you a douchebag because you are a douchebag, your outdated western propaganda isn't fooling anyone, troll. any who take the time to look will see the s-550's completed testing in late 2021 right before the russians gave their final warning to zato.

unlike you the russians have real defense systems that have left you in the dust of history. every system you announce, is cancelled before it goes into production. look at you pathetic attempts to create a hypersonic missile and the failure of your vaunted f-35 hanger queen, all you have is propaganda and you suck at that.

Iran's like a bad babysitter.

It pushed Hamas, Hezbollah and Houthis into war, then ghosted them.  
It literally left them for dead.

Ora chiede agli Stati Uniti i soldi per il pranzo.

È un fiasco ancora più grande della Guerra dei sei giorni.

Ora i fanboy di Assad piangono perché Ahmad al Sharaa ha fumato l'Iran in Siria.
